

TRAINMEN'S STRIKE AT ROODHOUSE IS SETTLED

Workers Return After Three Days to Chicago & Alton Railroad and Service Will Be Back to Normal by Tomorrow — Agreement Reached at Conference.

TRAINS WILL RUN BOTH DAY AND NIGHT

First Decision Was for Operation in Daytime Only, but Trainmen Found This Impossible and Have Agreed to Full Schedule.

ROODHOUSE, Ill., Aug. 29.—Train service over the Chicago & Alton Railroad here will return to normal, both day and night, by tomorrow, following a decision by trainmen that it would be impossible to split train schedules and run trains only by day. They reached this conclusion this morning and communicated with Vice President Titus of the company, who will depart for Chicago this afternoon.

The first train to leave Roodhouse in 48 hours left here at 7:30 a. m. today bearing two passengers to St. Louis. It came through from Jacksonville.

The walkout of engineers, firemen and conductors, which has been in progress since last Friday night, was ended last night, following a conference between Titus and members of the brotherhoods affected. The outbreak has impaired the service of the Chicago-Kansas City branch of the Chicago & Alton for the last three days.

Under the agreement, trains were to have run only during the day for the present.

The members of the three brotherhoods walked out when they declared conditions unsafe for transportation because of damage to the railroad property said to have been caused by sympathizers of the striking shopmen.

E. J. & E. WALKOUT AT JOLIET ENDS

JOLIET, Ill., Aug. 29.—The walkout of the railroad brotherhoods on the Elgin, Joliet & Eastern Railroad in the local yards was ended this morning in an agreement between the road and national officers of the train organization, Lieutenant-Colonel Nelson Morris, in command of state troops in Will County, announced.

The men were ordered back to work at 3 o'clock this afternoon.

The settlement was based on the offer made to the strikers two weeks ago that the guardmen would be removed from the gates leading to the shops and yards and withdrawn a short distance.

EFFORTS TO AVERT STRIKE AT CHAFFEE

Attempts to avert a threatened walkout at 5 p. m. today of firemen of the St. Louis-San Francisco Railroad's river division, St. Louis to Memphis via Cape Girardeau, Mo., are being made by J. E. Hutchinson, general manager of the Frisco, at Chaffee, Mo., where the men have served notice they will quit unless National Guardmen are removed from the shops. Brakemen on the division are also said to be considering going out.

President J. M. Kurn of the Frisco has wired national heads of the "Big Four" brotherhoods that the road expects the guardmen to be held to their contracts. Two through passenger trains run daily on the river division in each direction between St. Louis and Memphis, besides local trains. Should a riot result, the main trains can be diverted over lines in Illinois, it was said.

TRAIN SERVICE ON C. & A. IS RESUMED

Train service on the Chicago & Alton Railroad between St. Louis and Roodhouse, Ill., at a standstill since members of the "Big Four" brotherhoods walked out at Roodhouse, Friday night, was today resumed, as a result of a settlement reached at Roodhouse, S. A. Williams, general agent of the operation, said.

FRAGMENT OF ROCK FROM HIGHEST POINT REACHED ON EVEREST SENT TO POPE

ROME, Aug. 29.—The members of the Mount Everest expedition have sent to Pope Pius a fragment of rock from the highest point reached. The fragment is mounted on an ebony stand, decorated with silver, with an engraved inscription.

The Pope, himself an Alpinist, greatly appreciates the gift and has sent to Brigadier-General Bruce, leader of the expedition, the gold medal of the pontificate with an autographed letter of thanks.

MAXIM HAS PERFUMES BANNED IN BATHING BEAUTY PAGEANT

INVENTOR TO FIGURE AS NEPTUNE SAYS LABORATORY EXPERIENCES HAVE MADE SWEET ODORS OFFENSIVE.

ATLANTIC CITY, N. J., Aug. 29.—Hudson Maxim, the inventor, who was to be Father Neptune in the pageant to be held here in connection with the contest for the title of the country's most beautiful bathing girl, has succeeded in having perfumes banned.

"For many years, while experimenting with smokeless powders and other explosive materials," the inventor wrote, "I was obliged to work in an atmosphere charged with vapors of acetone, acetate of amyl, benzol and other volatile solvents of gun cotton. So offensive have perfumes become to me that when I give a reception at my home I send all the invited guests a printed slip requesting them to refrain from wearing any perfume."

Miss Margaret Gorman of Washington, D. C., last year's winner, who was to be Neptune's daughter, has only 50 opponents in this year's contest for the title and golden mermaid trophy.

HOOVER SAYS COAL PRICES WOULD ADD BUT \$1.50 PER TON

Commerce Secretary Expresses Hope That Auto Manufacturer Will Not Close Plants.

WASHINGTON, Aug. 29.—The present coal prices would add only \$1.50 to the price of Ford cars, Secretary Hoover declared today in expressing the hope that the Detroit automobile manufacturer would not find it necessary to close his plants because of the price of fuel.

Hoover said he noted that Ford considered \$4.50 a ton a reasonable price for coal, and that the Detroit manufacturer could obtain it now at \$5.50. Figuring on the basis of 2500 tons of coal used a day, Hoover estimated that even under present prices the increase per Ford car would be only about \$1.50.

THREE KILLED IN EXPLOSION TWO OTHERS INJURED IN ACCIDENT NEAR CARHAGE, MO.

CARTHAGE, Mo., Aug. 29.—Three men were instantly killed and two injured when a gelatin mix house at the Atlas Powder Co. plant, seven miles southwest of Carthage, exploded this morning.

The dead are Will Leroy of Carthage, Andrew Case of Dowsen, and William McMahon, residing near the plant. All were men with families.

SWEDISH 'WITS' AHEAD 44,545

Unofficial Count Made of What Is Believed to Be Complete Vote.

STOCKHOLM, Aug. 29.—A majority of 44,545 against prohibition, 842,129, for prohibition, 837,584; majority against, 44,545.

LACLEDE COMMON WORTH \$5,510,500 MORE SINCE JAN. 1

Stimulus of Unusual Earnings From High Rates for Gas Is Cause of Rise in Market Value.

GAIN OF \$51.50 FOR INDIVIDUAL SHARES

Company Granted Rate Increase Less Than Two Years After Cutting 'Melon' of \$1,070,000.

The market value of common stock of the Laclede Gas Light Co. has increased \$5,510,500 since Jan. 1 under the stimulus of unusual earnings.

At the beginning of the year, Laclede common stock was tranquil at \$43 on the New York Stock Exchange. High bid on the exchange yesterday was \$94.50, an advance of \$51.50 a share since Jan. 1, and sales have been brisk since reports of the company disclosed that it had converted a deficit of \$40,000 for the second quarter of 1921 to a surplus available for fixed charges and dividends of \$721,000 in the second quarter of 1922.

Since Jan. 1 there have been sales of 37,700 shares of Laclede common on the New York Stock Exchange.

At the time and the common stock of the Laclede given to stockholders of the merged companies.

The Missouri Public Service Commission, in fixing a tentative valuation of \$600,000 for the company, has indicated that it considered the common stock largely "water," the total of bonds and preferred stock totaling \$28,500,000, tending to show that the \$10,700,000 of common stock would be a capital investment beyond \$1,500,000.

BEGINS TO PAY DIVIDENDS

For a few years, the Laclede paid no dividends upon its common, then began to pay 5 per cent and soon advanced to 7 per cent. The stock owned by a period of 1911 to 1913, which set quotations on it to \$110 a share.

In the six years beginning with 1911, the Laclede paid out 61 per cent in dividends on the common, or an average of more than 19 per cent a year. Despite this high dividend rate, the income of the company was so great that in addition a "melon" of \$1,070,000 grew up in its treasury. In January, 1917, the company "cut the melon" with a 10 per cent stock dividend in addition to the regular 7 per cent cash dividend, making the yield for that year to common stock holders 17 per cent.

Less than two years after cutting the "melon," the company appeared before the Public Service Commission with a plea that it needed an increase in the rate of 10 per cent to cover the cost of a disaster, and common stock dividends were suspended in March, 1919. The Commission granted the company a 10-cent increase in its rates to householders, making the charge cents per 1000 feet.

Before a year had elapsed, the company again appeared before the Commission, declaring that it was on the verge of bankruptcy and asking for another increase in rates. The Commission advanced the rate to householders to \$1.05 in April, 1920.

Operating Costs Decline.

Since that time, virtually all the operating costs of the company have declined, until, as told in the Post-Dispatch last Thursday, the Laclede net earnings now are at a rate of \$600,000 annually in excess of a 7 per cent return on the Public Service Commission's tentative valuation of \$30,000,000. The company's earnings are yielding at the rate of 8.64 per cent, or more than 1,000,000 a year on the common stock.

The reduction in the price it must pay for coal and has obtained a contract for next year which entails a further reduction in excess of \$500,000 a year. It has reduced wages of all employees, has obtained an increase in its electric rates, has had a saving in freight rates on coal and has otherwise reduced operating costs without having reduced rates.

As is known, the Public Service Commission has ordered the Laclede to show cause why its rates should not be reduced and has set Sept. 28 for a hearing.

222 LIVES LOST WHEN CHILEAN SHIP SINKS

Itata, 2200 Tons, Goes Down Off Coast of Chile Near Coquimbo 200 Miles North of Valparaiso.

SANTIAGO, Chile, Aug. 29.—The Chilean steamship Itata, 2200 tons, sank today off the Chilean coast near Coquimbo. All the passengers, numbering 150, and the crew of 72 were lost. Coquimbo is about 200 miles north of Valparaiso.

BIG VOTE EXPECTED TODAY IN CALIFORNIA

Chief Contest in Primary Overwhelmingly Republican Is Between Johnson and Moore.

SAN FRANCISCO, Cal., Aug. 29.—Fair weather, a record registration and a sharply contested race for an important nomination combined today to indicate a heavy vote in California's primaries. The positions for which nominations are to be made comprise everything from United States Senator to Justice of the Peace.

The registration is overwhelming. Republican, 527,846 persons—a plurality in every county and a majority in most—having signified their allegiance to that party. The recorded Democratic strength is 305,638; the Socialist 22,511 and the Prohibitionist 21,250. Those who declined to state their political preferences numbered 172,789 and the rest of the total of 1,452,292 were classed as "miscellaneous."

The contest attracting chief interest is between Hiram Johnson, incumbent, and C. C. Moore for the Republican nomination for the Senate. Upon Sinclair of Pasadena, writer, is unopposed for the Socialist senatorial nomination and the Democrats also have a candidate in the field without opposition.

The races for the Republican gubernatorial nomination and for the Lieutenant-Governorship and the same ticket also are receiving much interest. Gov. William D. Stephens and Fried W. Richardson, State Treasurer, are candidates for the Governorship. Mattison B. Jones, Los Angeles attorney, and Thomas Lee Woolwine, District Attorney for Los Angeles, are seeking the Democratic gubernatorial nomination and Jones also seeks prohibition endorsement for the office.

HINTON ON WAY TO PENSACOLA TO TAKE SECOND AIR CRUISER

Exact Line of Further Flight toward Rio de Janeiro Not Yet Decided Upon.

By GEORGE T. BYE.

(Copyright, 1922.)

KEY WEST, Fla., Aug. 29.—The crew of the seaplane Samplico Corbett No. 1 arrived here at 6 o'clock yesterday afternoon by boat from Havana, en route to Pensacola to take charge of the outfitting of their second aerial cruiser at the Pensacola Aviation.

Before they left Havana at 10:30 in the morning, the Brazilian Minister, A. Veloso Rebello, called at the pier and presented to Dr. E. Pinto Martins a "blanket" diplomatic passport for the flight from Pensacola to Brazil.

Walter Hinton and Dr. Martins are undecided, in assuming the flight, whether to go along the southern or northern shore of Cuba. The flight from Pensacola may be along the west coast of Florida or across the State over the St. John's River.

SWIMS ALMOST ACROSS CHANNEL

Italian in 19 Hours and 10 Minutes Covered 26 1/2 Miles.

DOVER, England, Aug. 29.—After being in the water 19 hours and 10 minutes and completing all but one mile of the 28-mile trip, Tiraboschi, an Italian swimmer, this afternoon had to give up his attempt to swim the English channel from France to England. He quit at 6:10 o'clock.

FIRE IN TULSA SKYSCRAPER

Heavy Damage Done on Upper Floors of 14-Story Building.

TULSA, Ok., Aug. 29.—Fire in the 14-story Corden building here today caused damage estimated as exceeding \$100,000. Defective wiring is said to have caused the blaze.

GRAND JURY BEGINS HEARING STORY OF HERRIN MASSACRE

Investigation Intended to vindicate the Law in Williamson County, but People Show Little Interest.

MINERS SAY INQUIRY IS DIRECTED AT THEM

No Members of Their Union, However, Were in Court When Judge Gave His Instructions to Jurors.

AMUNDSEN'S SHIP REPORTED IN THE ICE OFF POINT HOPE

Explore Apparently Has Given Up Transpolar Flight for This Season at Least.

NOME, Alaska, Aug. 29.—Capt. Roald Amundsen's exploration ship Maud is in the ice off Point Hope, north of Kotzebue Sound, and the eastern entrance to Bering Strait, according to a radio message received here from the coast guard cutter Bear. It is believed that the Maud is returning to Nome because of unfavorable ice conditions.

The message also gives definite information that Capt. Amundsen, who left the Maud some time ago with Lieut. Oscar Omdal, aviator, and a motion picture photographer, will spend the winter at Wainwright, near Point Barrow, apparently having given up his proposed transpolar alpine flight for this season at least.

The Bear is due to arrive in Nome within the next 12 hours. The arrival is anxiously awaited in the hope that more definite news of the Amundsen expedition may be obtained from Capt. Cochran, her commander.

BODY OF MAN LASHED TO WHEEL OF AUTO IN RIVER, DIVERS SAY

Two Machines Found in Waters of Missouri River Near Kansas City—Murder Mystery Seen.

KANSAS CITY, Mo., Aug. 29.—The Missouri River yesterday began to reveal a mystery. It may be a story of murdered men thrown into the deep sink hole near Nearman, Kan., near Kansas City, where the current is so swift that a diver can scarcely work, or it may be a story of stolen motor cars driven into the river to fraudulently collect the insurance.

Last night two motor cars had been found. One was raised almost to the surface and the men working on it reported that the body of a man was lashed to the steering wheel. Today this car will be brought to shore.

Leonard Harrington, 25 years old, a negro, disappeared from his home, 210 Penn street, this city, a month ago. Mrs. Lizzie Harrington, his mother, found an anonymous note afterward had to wait here for an hour for Judge Hartwell's leisurely arrival.

Eight Present Excuses.

When the venire had been polled eight stood in token of desire to offer excuses. Mr. H. C. Conns denied his eligibility because he was a coal miner as well as a farmer, but Judge Hartwell knew Conns as a good citizen and besides it was not an inquiry directed against any particular calling and he was retained. The Rev. Robert E. Copher, Free Will Baptist, pleaded his age and was excused.

BEGAN AS JANITOR; MAYER, ATTORNEY LEFT \$20,000,000

Thousands of Persons Attend Funeral of Noted Chicago Lawyer.

CHICAGO, Aug. 29.—Levy Mayer, who died recently, was head of the firm of Mayer, Meyer, Austin & Platt. There were 14 members of the firm, and 11 of them started with Mayer as office boy.

Thousands of Chicagoans and hundreds of out-of-town friends of Mayer attended his funeral yesterday. The estate left by Mayer was estimated at \$20,000,000.

Mayer's greatest coup in Wall street came while he was attorney for the Distillers Co. Industrial Alcohol was a subsidiary. He got possession of 10,000 shares at from \$10 to \$15 a share. He sold it above \$125.

He worked his way through Yale law school. He returned to Chicago during a monetary panic and passed up the law to become a janitor and assistant librarian in the Law Institute at \$4 a week.

From this work—days, nights, Sundays and holidays—there came to the young lawyer familiarity with the contents of the books he handled.

In 1881 he was admitted to the bar.

He is said to have received \$1,000,000 from the law interest for his fight against the Eighteenth Amendment and the Volstead Act, carried to the United States Supreme Court. It was one of the few big cases he lost.

He successfully defended the owners and lessees of the Jiroquois steamer, destroyed by fire with a loss of many lives. In another case he is said to have netted his client \$11,000,000. His fee was \$500,000. In a recent case he received \$25,000 for one hour of work. He received \$500,000 when he sold the Ogden Gas Co. for the Republican Construction Co. at Galveston, Tex., in April, 1909.

Mayer died the wealthiest practicing attorney in the United States. He was always proud of the fact that he began his career at a salary of \$4 a week, and in his first year's earnings as a lawyer were \$470.

GRANITE CITY STEEL WORKS RETURNS TO EIGHT-HOUR DAY

Plant Will Be Run Again at Full Capacity With 2500 Employees.

Officers of the Granite City Steel Works, a branch of the National Enameling and Stamping Co., announced today that, beginning Tuesday, the plant would run at full capacity, eight hours each day. About 2500 men, who had been employed, would be ordinarily used when at capacity production. The plant, which ran with 1500 men on a four-hour-a-day basis, increased to six hours a day a week ago, after a walkout of men in the finishing department over the wage scale had resulted in a four-day suspension of work before it was settled.

A wage increase averaging 6 per cent for all unskilled labor at the plant will go into effect Tuesday. Other men are employed on a sliding piecework basis decided by the market price of steel. Officers of the plant say they have arranged for enough coal to keep the works going all winter.

BEARER OF MESSAGE TO GARCIA PRESENTED WITH DECORATION

Maj. Andrew S. Rowan Given Distinguished Service Cross at Presidio Ceremony.

SAN FRANCISCO, Cal., Aug. 29.—Maj. Andrew S. Rowan, U. S. A., retired, today is officially the man who carried "the message to Garcia." Rowan, who, according to the late Elbert Hubbard, who made the event famous, "stood out like Mars at perihelion," in the Cuban disturbance by delivering "the message to Garcia," was decorated for the fact at the Presidio here yesterday with a distinguished service cross. The cross was presented by Brigadier-General Chase W. Kennedy, post commander.

Rowan, then a Captain, established a liaison between President McKinley and Garcia and obtained information which it is said was largely responsible for the quick termination of the American campaign and the defeat of the Spanish.

KING OF SIAM WEDS COUSIN

Chooses Cousin; His Father Said to Have Had 300 Wives.

BANGKOK, Siam, Aug. 29.—The marriage of Maha Majiravudh, King of Siam, to his cousin, Princess Laksanavajiravudh, was proclaimed Sunday.

The King of Siam is 42 years old, and has been a bachelor. His father was said to have had 300 wives. The King is the first of his line to renounce the rights of a harem.

Liquor Prices Drop in Canada.

VICTORIA, B. C., Aug. 29.—The British Columbia Government has announced sharp reductions in liquor prices, especially beer and wine.

PRESIDENT ABANDONS FEDERAL COAL AGENCY PLAN

But He Still Believes Congress Should Enact Legislation to Vest in Him Power to Take Over Railroads and Mines if Such Action Is Deemed Necessary.

SEIZURE WOULD BE THE LAST RESORT

Tells Congressional Spokesman Only Most Serious Public Necessity Would Move Him to Exercise the Power, if Granted.

WASHINGTON, Aug. 29.—President Harding still believes that Congress should grant him immediately authority to take over railroads and mining properties. It was said today at the White House, but he has assured congressional spokesmen that only the grimmest public necessity would move him to exercise such powers if granted.

If Congress indicates unwillingness to enact the legislation necessary, the President does not intend to push his opinion or to make a formal public demand for the powers, it was said, officials adding that he does not believe there is any present necessity for action under such a grant.

Definite abandonment of the President's proposal to Congress for a Federal coal agency with capital to buy, sell and distribute coal was announced to the House today by Chairman Winslow of the Interstate Commerce Committee at the beginning of a debate on the bill to create machinery to supervise distribution only.

Winslow's Report.

The change in plans, Winslow said, had been acquiesced in by the President, whose suggestion for a purchasing and selling agency had been thrust into the background of congressional consideration almost as soon as it was submitted. Quoting the recommendation as contained in the President's address to Congress on the rail and coal situation, the committee chairman said in his report on the distribution bill:

"Since the utterance of the foregoing suggestion by the President his advisers, including members of the voluntary committee appointed by the President and those who have advised and assisted in the preparation of this bill, have determined and agreed that the possible plan suggested by the President could be well set aside and another method followed in working out the problem."

"The President is in accord with this conclusion. This bill is the outgrowth of the determination that, as such has been considered and reported favorably by the Interstate Commerce Committee."

Situation in Senate.

A more complicated legislative situation in the Senate is deferring action on the companion measure pending there, also reported yesterday, but leaders predict that it will receive favorable action without much delay.

Secretary Hoover, in appearing at hearings yesterday on the House bill, asserted that some legal method of restraining extortionate prices in coal would be necessary and Commissioner Atchison of the Interstate Commerce Commission concurred in this view. Opposition was expressed by representatives of both operators and labor in the industry.

With administration leaders apparently confident that the difficulty threatened in moving the increasing quantity of coal being mined, due to the transportation conditions, can be met by relief under priority a authority already possessed, or to be conferred by pending legislation, the proposal for Government operation of rail properties, as well as those of the anthracite coal industry had been put aside today.

Pending passage of the emergency legislation by Congress, Federal control of coal prices and distribution under the voluntary distribution organization has stopped today. Federal Fuel Distributor Spencer having announced the disbanding of the organization.

FOUR MEN CONFESS WRECKING EXPRESS TRAIN NEAR GARY

**Affidavits Charging Murder
Filed Preparatory to Presenting
Case to Lake
County Grand Jury.**

**ALL ARE STRIKING
RAILROAD WORKERS**

**One Says He Is Machinist
and the Others Claim
Membership in a Carmen's
Union Local.**

By the Associated Press.
GARY, Ind., Aug. 29.—Confessions signed and sworn to by four men held by the Gary police in connection with the wreck of a Michigan Central express train on Aug. 20, are in the hands of Dwight Kinder, County Prosecutor, preparatory to presentation to the Lake County grand jury, according to the authorities.

The grand jury summoned for six months, may be called into session at any time by Judge Martin Smith of the Criminal Court at Crown Point, and is expected to be convened within a few days for hearing of the wreck evidence.

The police insist that only four men are held here, although other reports have been that at least 10 men were in custody in connection with the case.

The affidavits charging murder, based on the death of the engineer and fireman of the express train, name the defendants as Albino Alessi, Joe Popowitch, Charles Ustos and Joe Petrowski, all of Chicago, and all of whom claim union membership, and say they now are on strike.

Ustos says he is a machinist and the others claim membership in a carmen's union local.

The fourth confession, that attributed by the police to Joseph Webster, was obtained early today. For 14 hours he had denied any part in the alleged plot by which the police and railroad agents assert the train known as the "Million Dollar Express" was wrecked one mile east of Gary.

TWO MEN ORDERED HELD FOR DEATH OF GIRL AFTER ACCIDENT

**Criminal Charges Made Against
Them by County Jury, Following
Investigation.**

Clay B. Harrison, a chauffeur, living at 127 East Argonne drive, and Robert Batock, a carpenter, of 7420 Oakland avenue, were ordered held today on \$5000 bonds each on a charge of criminal carelessness by a coroner's jury investigating the death of Virginia Held, 16, of 32 South Rock Hill road, Webster Groves, who died at St. Luke's hospital yesterday from injuries suffered at 7:30 a. m. when struck by Harrison's automobile at Rock Hill road and Lockwood avenue.

Harrison was arrested yesterday, but Batock, who is held as an accessory, was not taken into custody until after his testimony before the coroner. Batock stated that he was driving west on Rock Hill road and swerved to avoid the girl, who was running to board a street car.

Harrison, who was driving eastward, struck the girl before she reached the car, which was discharging passengers. C. Brandt, 615 East Jefferson avenue, Kirkwood, a passenger on the street car, testified that Harrison was driving about 30 miles an hour.

Miss Held was the daughter of Mr. and Mrs. Eugene Held. Funeral services will be held at 2 p. m. tomorrow from the family residence to Park Lawn cemetery.

ARCHBISHOP ASKED TO OFFICIATE AT SCHOOL CORNER STONE LAYING

**Ceremony at Blessed Sacrament
School to Be Held Sunday**

The corner stone of the Blessed Sacrament Parochial School, King's highway boulevard and Maffitt avenue, will be laid between 4 and 5 p. m. Sunday. Archbishop Glennon has been asked to take charge of the ceremonies.

Construction on the school, which is to be built at an approximate cost of \$175,000, started June 19, after the school site there for 12 years had been demolished. The architect, M. V. Lahey, said today that it will be the first school building in the city to be built entirely of rock.

"The building is 135 feet long, 85 feet wide and contains three stories and a basement. It will house classrooms, an auditorium and a convent, and is expected to be occupied by the latter part of this year. The Rev. Patrick H. Bradley is pastor of the parish.

HURRICANE FLOODS VERA CRUZ

**Heavy Damage Caused and Loss of
Life Is Feared.**

By the Associated Press.
SAN ANTONIO, Tex., Aug. 29.—A hurricane visited Vera Cruz Saturday night and Sunday night and flooded the streets and may have cost several lives, according to telegraphic reports received here today.

Heavy damage was done by the water which filled the streets and flooded many houses, the report stated. Rain fell heavily until 6 o'clock Sunday morning, when it stopped and the water subsided.

MISS ELIZABETH BRADSHAW

TRAINMEN'S STRIKE AT ROODHOUSE IS SETTLED

Continued From Page One.

ating department of the road here, announced this morning.

Passenger train No. 31, due here at 10:30 a. m., arrived in St. Louis at 11:12 a. m. The first passenger train out of here for Roodhouse will be No. 20, which will leave at 5:26 p. m., its regular time. Freight trains over the division will reach here this afternoon, it was said. No freight can leave St. Louis for Roodhouse until these arrive, as the inbound trains take the others out.

The walkout of brotherhood men at Slater, Mo., has not yet been settled, and no attempt is expected to be made today to operate the four passenger trains which run daily between St. Louis and Kansas City on the Chicago & Alton.

FREIGHT TRAFFIC ON MO. PAC. RESUMED

**Freight Traffic on the Missouri
Pacific Railroad between Kansas
City and Joplin, Mo., was resumed
last night, after a tie-up since Saturday.**

When "Big Four" Brotherhood men and other employees went back to work at Nevada, Mo., on orders from their national officers, it was announced today at the general offices of the road here. No change was made in the number of deputy United States Marshals at the yards. The 500 men who struck had demanded their removal.

End of the walkout at Nevada brings all "Big Four" Brotherhood men on the road back into service, as those who went out at Jefferson City Saturday returned to work yesterday. Freight traffic is now moving over the entire system. Maintenance of way men who struck at Jefferson City Saturday came back today at Sedalia are also back.

About forty maintenance of way laborers employed in the Missouri Pacific roundhouse in Jefferson City, who quit work Sunday afternoon, went back to work last night. They had complained of conditions of sanitation at the roundhouse, which now have been corrected.

RAIL LABOR BOARD REFUSES TO DEFINE A "LIVING WAGE"

**By the Associated Press.
CHICAGO, Aug. 29.—The Railroad
Labor Board today denied the motion
of W. Jett Lauck, labor statistician,
that the board immediately
define the principle of a living**

wage" in the case of the maintenance of way employees who are seeking increased minimum rates of pay.

At the request of E. F. Grable, president of the maintenance organization, the hearing then was adjourned until tomorrow morning.

Grable announced that he was telegraphing President Harding and Senator Cummins today asking them to present to Congress an amendment to the transportation act which would make it mandatory on the Labor Board to "enunciate the principle of the living wage."

"The transportation act requires the board to establish wages that are just and reasonable," said Chairman Hooper in the ruling. "It is within the province of the parties herein to make such contentions as they may wish to make, but it is not the province of the board to establish wages that are just and reasonable."

A. O. Wharton, the only labor member of the board at the present hearing, submitted a motion which was rejected by a board vote of 6 to 1.

The resolution, in effect during the tenure of the War Labor Board, according to Grable and Lauck, said:

"The right of all workers, including common laborers, to a living wage is hereby affirmed. In fixing wages, minimum rates of pay shall be established which will insure the subsistence of the worker and his family in health and reasonable comfort."

The maintenance men are asking for 48 cents an hour as a "living wage."

The wage scale for maintenance of way workers prescribed by the board in its decision effective July 1 and against which the trackmen voted to strike, ranged from 23 to 35 cents an hour. President Grable, who held the strike in the number of deputy United States Marshals at the yards. The 500 men who struck had demanded their removal.

End of the walkout at Nevada brings all "Big Four" Brotherhood men on the road back into service, as those who went out at Jefferson City Saturday returned to work yesterday. Freight traffic is now moving over the entire system. Maintenance of way men who struck at Jefferson City Saturday came back today at Sedalia are also back.

About forty maintenance of way laborers employed in the Missouri Pacific roundhouse in Jefferson City, who quit work Sunday afternoon, went back to work last night. They had complained of conditions of sanitation at the roundhouse, which now have been corrected.

ELIZABETH BRADSHAW AND LIEUT. HEAD ELOPE

**Bride Is Washington University
Graduate—Marriage Takes
Place in Chicago.**

Miss Elizabeth Bradshaw of 5130 Washington boulevard, who was graduated last June from Washington University, where she was a leader in women's athletics and in social affairs, and First Lieutenant Kenneth Head of 6775 Kingsbury avenue, Personnel Adjutant of the 18th (First St. Louis) Infantry, National Guard of Missouri, eloped to Chicago and were married yesterday.

The bride is the daughter of Mr. and Mrs. Robert Bradshaw, her father being vice president of the Wrought Iron Range Co. Lieut. Head is the son of Mr. and Mrs. James L. Head, and is a salesman for a mimeograph company of which the commander of his regiment, Col. C. S. Thornton, is district manager.

Bradshaw knew nothing of the elopement until he received a telegram last night. Mr. and Mrs. Head had an inkling their son was to be married. Mrs. Bradshaw is spending the summer in Charlevoix, Mich. Her daughter had been serving this summer as a counselor at Camp Kewhwa, for girls, Michigan. Lieut. Head drove to Chicago Saturday and Miss Bradshaw met him there. Details of the wedding have not been learned here.

Lieut. Head and Miss Bradshaw met about two years ago and saw each other frequently at dances. She was a maid of honor in the court of the Velled Prophet in 1920 and 1921. She was crowned as Queen of the University of Washington University, March 17, 1920. Six weeks later she won first place in the "cords" annual track and field meet at the university, finishing with a score more than twice that of the girl who placed second.

Active in Social Affairs.
She was active in many social and athletic affairs of the university and with her were always in demand at student affairs. She was graduated with the degree of Bachelor of Arts. She belongs to Phi Beta Phi sorority and is known to her "sisters" as "Libby."

Lieut. Head, who is a member of Phi Delta Theta fraternity, studied at Kentucky Military Academy and during the Students' Army Training Corps period, at Westminster College. He held the position of adjutant of his regiment for about two years. He is 24 years old and Mrs. Head is 22.

They have gone to Charlevoix on their honeymoon and will visit to seniority rights later. Those who expect to return to St. Louis about Sept. 15.

American Ship in Collision.
HAMBURG, Aug. 29.—The American Line steamship St. Paul, bound from New York for Hamburg, was in a collision yesterday with a Dutch auxiliary vessel carrying timber for Morocco. The collision occurred in Cuxhaven Roads and the auxiliary was towed to Cuxhaven in a sinking condition. The St. Paul proceeded to Hamburg. The auxiliary was damaged is not known at present.

White and witnesses to the attack upon him by Soeder testified at the trial that Soeder struck him several times in the face with his fists, knocking him down, because he declined to tell the picket where he was working.

Kwiatkowski, on the witness stand, said he had parted company with Soeder, with whom he was assigned to picket duty, when the work train reached Locust street, because he didn't want to get in trouble and he thought the assault on White was wrong. Kwiatkowski is an alien Pole.

CONTEMPT CONVICTION HERE IN SHOP STRIKE

**Two Former Wabash Employees
Found Guilty of Attack-
ing Worker.**

A jury in the United States District Court yesterday returned a verdict of guilty against George Soeder, 1908 Middle street and Sam Kwiatkowski, 925 Harlan avenue, striking carmen, in the first contempt proceeding growing out of the railroad shopmen's strike to be tried.

Soeder, as principal, and Kwiatkowski, as accessory, were charged with assaulting Elmer White, employed by the Wabash Railroad, for which the strikers formerly worked on a work train on the levee July 31 last.

Judge Faris, in his instructions to the jury, told them not to let their verdict be influenced by statements of defense counsel that the defendants would be sent to the penitentiary, declaring the law limited the punishment that might be inflicted on them to six months in jail and a fine of \$1000, or both. The men probably will be arraigned for sentence today.

Seven Farmers on Jury.
The jury was composed of seven farmers, four rural merchants and one city resident. It was out only 10 minutes.

District Attorney Carroll, in his appeal for a verdict, declared the prosecution was not against the defendants as individuals, but was a test to see whether the citizens of the country would uphold "the right arm of the Government—the courts."

"Unless," he said, "these men are punished for the contempt shown for an order of this Court and other men equally guilty of similar contempt are also punished, then our Government is a laughing stock."

In his instructions to the jury Judge Faris said there was but three things for them to determine from the evidence, enumerating them as follows:

First, was there an injunction in effect at the time of the assault; second, did the defendants know of the injunction, and, third, did they commit the assault charged without legal provocation? In this connection he instructed the jury that mere words, however profane or insulting, could not legally be urged as a defense for assault.

"This is said to be a free country," the Judge declared. "We recognize the right of every man to work when he pleases, for whom he pleases and on such wages as he pleases and to quit his employment, with or without cause when he sees fit. We recognize also the right of the employer to employ whom he wishes at such wages as are mutually satisfactory to him and the employer, and to discharge that employee with or without cause when he sees fit. All of these concurrent rights, gentlemen, go with free men and must be upheld in this country."

White and witnesses to the attack upon him by Soeder testified at the trial that Soeder struck him several times in the face with his fists, knocking him down, because he declined to tell the picket where he was working.

Kwiatkowski, on the witness stand, said he had parted company with Soeder, with whom he was assigned to picket duty, when the work train reached Locust street, because he didn't want to get in trouble and he thought the assault on White was wrong. Kwiatkowski is an alien Pole.

HIGHER BID FOR SALE APPROVAL WITNESSES TELL OF FATAL FILM TRIANGLE TRAGEDY CHILDREN HAVING DAY'S OUTING AT FOREST PARK QUARREL OVER EGG SANDWICH LEADS TO FATAL SHOOTING CONVENTION ON NEW CONSTITUTION AGAINST RECESS

ors of Bankrupt Co. Hold \$510,000 Too Low. Several thousand boys and girls from the city playgrounds gathered this morning at the Forest Park cricket lawn, near Jefferson Memorial, and began a day's outing. In the inter-playground athletic meet. The day's program of athletic contests was scheduled to last 6 hours, and is to be followed, at 4 p. m., by the performance of "Snow White and the Seven Dwarfs," a pantomime with dances, in the Municipal Theater.

Entombed Gold Miners Took Part Recently in Movie Scenes JACKSON, Cal., Aug. 29.—MEN who may never see the light of day again as a result of the Argonaut mine explosion may come to life on the motion picture screen. A San Francisco film company recently visited the mine to get scenes of the interior, the country as motion picture background. Many men of the Argonaut mine took part in the filming of the picture.

Work on Tunneling to Gold Shaft Tomb Progressing Better Than Expected. JACKSON, Cal., Aug. 29.—Hope for the rescue of men now said to be number 47, trapped since midnight Sunday by a fire in the Argonaut gold mine, was revived today when it was announced that crews digging away tunnel obstructions between the Kennedy and Argonaut main shafts were making better progress than expected. H. M. Wolfson, superintendent of the Bureau of Safety of the State Industrial Accident Commission, made the announcement.

Colbeck Again Taken ON WEAPON CHARGE William P. Colbeck, 25 years old, a plumber and Democratic nominee for Constable, upon whom has been leadership in the Egan-Hogan gang feud since the death of Constable William T. Egan, was arrested yesterday, as he has been many times in the last year, on a charge of carrying a concealed weapon. Police found a revolver on him when they ran to the Harting Tire Co., 2024 Locust street, in response to what sounded to them like a human cry and a shot. They found no evidence that a shot had been fired.

RENSHAW PAID \$5100 IN TAXES WITH WORTHLESS CHECK Amount Due on Property Held As Trustee—Question of Liability Under Consideration. Who is liable for taxes amounting to \$5100 on property held by Henry T. Renshaw, trustee, president of the J. W. Renshaw's Sons Insurance and Realty Co., of East St. Louis, which recently failed with liabilities exceeding \$400,000, resulting in the arrest of Renshaw on charges of forgery of promissory notes, is a problem that Assistant Attorney-General Hamilton of Illinois is attempting to solve.

WRIGHT MCCORMICK KILLED IN FALL NEAR MEXICO CITY Map Editor for U. S. Geological Survey Loses Life in 30-Foot Drop on Mountain Side. WASHINGTON, Aug. 29.—Wright McCormick, editor of maps for the Geological Survey and a former professor at the University of Texas, lost his life in a 30-foot fall from the side of Mt. Ajusco, near Mexico City, says a cablegram received today by his parents here.

Will of H. G. HERBEL FILED The will of Henry G. Herbel, general attorney and interstate commerce counsel for the Missouri Pacific Railroad, who died August 11, was filed yesterday. He left household goods and an income of \$1200 a year, payable monthly, to his wife, Mrs. Mary Herbel, 5082 Westminster place, but provided that should she marry again the bequest shall be void and her interest in the estate extinguished. The remainder goes to his two daughters, Mrs. Fred W. Howe and Mrs. John W. Thomson.

School Days Are Here Are Your Children's Eyes Right? Many a child considered dull or lazy in school is simply suffering from defective vision. Often correct glasses will change entirely the record of performance. Perhaps your youngster's report card has reflected the presence of eyestrain. Perhaps you are not doing your own child full justice.

AMERICAN ENTRANT COMPARES GERMAN AND FRENCH GLIDERS

German Machines Better Adapted to
Soaring, Edmund T. Allen
Declares

(Special, 1925)
EDMUND T. ALLEN, American competitor in the French gliding contests, can see no advantages for soaring at Clermont over those at Clermont Ferrand. In fact, he said, the hills here are even lower than the ones from which the French took off for their flights.

He pointed out, however, that the German gliders appear to be better adapted to soaring. The French machines are merely ordinary planes with the motors removed, while the Germans are of a decidedly slow speed soaring type.

"What gets me is the remarkably flat gliding angle of the German planes," he explained. "I can't understand why better gliding records were made in Germany than in France," he went on. "The best French flights were made from Puy de Dôme, which is 4700 feet high, while the Wasserkuppe hills are only 2100. The French flights were little more than glides, showing no such ability to climb the air as here. Perhaps it is because the French terrain is hilly and of lava formations while there are grass lands and woods here."

Allen will be eligible to compete for the 500,000 marks prize offered by Anthony H. G. Fokker, the Dutch airplane expert, for a motorless flight of 25 kilometers (15 1/2 miles).

METHODISTS ASKED TO GIVE TENTH OF THEIR INCOME

Fund Wanted to Meet Crisis Caused
by Forces Declared to Threaten
Civilization.

By the Associated Press.
CHICAGO, Aug. 25.—An appeal to all Methodists to donate a tenth of their income to meet the crisis caused by the forces which were declared to threaten civilization is made by the board of Bishops of the Methodist Episcopal Church in an open letter to the ministry and membership.

The funds, it is explained, would be used by the Methodist Centenary Movement. The appeal says the demand is urgent and that "the destiny of the world hinges upon Christianity. The destiny of Protestantism will be largely influenced by Methodism's failure or success at this time."

The letter reads in part as follows: "Our world is summoned to meet the issue of its moral destiny. The crisis this hour transcends immeasurably the military crisis of the period of the war. Then men feared those who had power to kill the body; now men stand aghast and fear-some in the presence of forces which threaten to cast civilization body and soul into hell. Humanity must make a new start."

MAN FOUND DEAD THOUGHT TO HAVE ENDED OWN LIFE

Wife of Laborer Says He Had Been
Ill Several Weeks With Chronic
Ailment.

The body of Frank Chudinski, 42 years old, of 1113 Patterson avenue, a laborer at the Evans & Howard Fire Brick Co., 1208 Manchester avenue, was found at 9:30 a. m. today, with a bullet wound in the forehead, on the south bank of the River des Peres, about 400 feet east of Mackinac avenue.

Chudinski's wife said he had been ill for several weeks from a chronic ailment and had left home some time after 1 a. m. today, with the remark that he was going out for fresh air.

The theory of the police is that Chudinski shot himself, and the fact that no revolver was found is accounted for with the theory that it probably fell into the river and disappeared in the mud.

Mrs. Chudinski said her husband did not possess a revolver.

35TH DIVISION REUNION French Signs to Be Used in Kansas Town to Give Atmosphere.

By the Associated Press.
WICHITA, Kan., Aug. 25.—On the fourth anniversary of its baptism in the Argonne, the Thirty-fifth Division of the American Expeditionary Forces will meet here in its third annual reunion. This division, made up chiefly of Kansas and Missouri national guard troops, went over the top in the Argonne drive, Sept. 26, 1918. The dates of this year's reunion are Sept. 25, 26 and 27.

A committee has been appointed to turn Wichita thoroughfares into a typical French leave area. French signs will be used. Among those invited to appear on the program are Sir Auckland Geddes, British Ambassador to the United States, Senator Vittorio Rinaldi Ricci, Italian Ambassador, and Baron de Cartier de Marchienne, Belgian Ambassador.

RESENT NALTY TRIAL CHARGES

50 Edwardsville Residents Seek to
Offset Venue Allegation.

To offset charges that four St. Louisans now in the county jail at Edwardsville, charged with implication in the murder of Deputy Sheriff Patrick J. Nalty, cannot obtain a fair trial in Madison County, and that they are in danger of violence at the hands of residents, affidavits were prepared yesterday and signed by 50 residents of Edwardsville to the effect that there is no public sentiment expressed on the matter.

It was not an easy matter to get the affidavits, not because of any conflicting viewpoints, but for the reason that only those not available for jury service could be considered in their preparation.

WOMAN'S SKULL FRACTURED WHEN AUTO CRASHES INTO TREE

Cries Attract Police Who Find Victim
Alone Amid Wreckage;
License Number Traced.

Mrs. Estelle Emmons, 27 years old, of 3032 Franklin avenue, wife of a street car conductor, suffered concussion of the brain and scalp wounds at 1:30 a. m. today when an automobile in which she was riding was wrecked against a tree at Page and Pandemon avenues. She was taken to the city hospital.

Police, attracted by a woman's cries, found Mrs. Emmons amid the wreckage of the machine and no one else about. At first she refused to give any information about the affair but later said she had been invited to go to Wellington by a woman friend living near her and in Wellington had met an acquaintance with an automobile. After riding about for a short time the friend was taken home. She was being taken home, she said, when the accident occurred. The man driving the machine left the scene. She did not know whether or not he was injured. Tracing the license of the machine, police learned the man lived in Webster Groves.

Police are seeking the driver of a Ford automobile who fled after seriously injuring Mrs. Helen O'Leary, 24 years old, of 249 Fannie avenue, St. Louis County, as she crossed the street in front of 7318 Virginia avenue at 1:15 p. m. yesterday. Mrs. O'Leary suffered internal injuries. The police are tracing a license number given to them.

ENGINEER WHO DROVE 15 MILES AFTER STROKE IMPROVING

Stricken While on Duty, But Re-
mained at Post Until Relieved;
Aided by Fireman.

William Smith, 4479 Greer avenue, Rock Island engineer who drove his train 15 miles from Leslie to Union, Mo., yesterday following a stroke which paralyzed his right arm and side, today was reported as improving at the Baptist Hospital, Garrison and Franklin avenues, and is expected to recover.

The engineer was stricken as he stepped from his engine at Leslie to

oil the locomotive. He was helped back into the cab by H. E. Francis, of Eldon, Mo., the fireman, and continued the run to Union, where he was relieved by J. C. Slaby, of Eldon, a Rock Island engineer who was a

passenger on Smith's train, No. 24, from the Pacific Coast. During the run from Leslie to Union Francis dined the engine and at times assisted Smith in operating it. Smith, who is 42 years old, has

been an employee of the Rock Island for 23 years, 13 years as an engineer.

Corns Go Blue-jay

Just say
to your druggist

The simplest way to end a corn is Blue-jay. A touch stops the pain instantly. Then the corn loosens and comes out. Made in a colorless clear liquid (one drop does it) and in extra thin plaster. The action is the same.

Large Sizes, \$4.98 (Fifth Floor.)

The physician two weeks treated her. Pneumonia and another doctor was called.

WHEN TIME COUNTS USE LONG DISTANCE

MAN STABS ANOTHER AFTER VISIT TO WIFE

Dishwasher, Returning From Abode of Separated Family, Wounds Barber.

Nathan Reichman, 48 years old, 2189 School street, who conducts a barber shop at 2101 Carr street, is at the city hospital in a critical condition from an eight-inch, penetrating stab wound in the abdomen, inflicted yesterday at 4:15 p. m. by Clarence Wilhite, 35, of 904 North Fourteenth street, a dishwasher, who was arrested in flight from Reichman's shop, in front of which the stabbing occurred.

Reichman told the police that Wilhite was separated from his wife and children, who reside above his shop, and that upon one occasion Wilhite was arrested for disturbing his family's peace and that he had appeared as a witness against him.

Yesterday, Reichman said, he observed Wilhite descending from Mrs. Wilhite's living rooms and accosted him, asking: "Been up to see the wife?" He declared Wilhite drew a knife and attacked him. He fled into the street, which was torn up preparatory to paving, he said, stumbled and fell, and that Wilhite, leaping on him, stabbed him as he lay.

This was partially corroborated by two women across the street, who said that Reichman was attacked and fell in the street as he stooped apparently to pick up a rock.

Wilhite declared that when he came down from his wife's rooms Reichman demanded to know what he was doing up there and that he replied that it was "none of his business." He declared that Reichman obtained a razor from his shop and attacked him, whereupon he drew a knife and stabbed Reichman in self-defense.

ALLEGED SWINDLER ARRESTED AFTER FARMER LOSES \$27,000

Thomas Baker, 57, Said to Be Member of Wire-Tapping Gang, Held in New York.

Special to the Post-Dispatch.

NEW YORK, Aug. 29.—Thomas Baker, 57 years old, also known as "Shelby," of 225 West 121st street, alleged member of the notorious Gendort gang of wire-tappers, who is said to have operated in Florida last year, was arrested yesterday at Fifth avenue, Forty-third, on a charge of swindling a farmer out of his life's savings of \$27,000. He is held for the authorities of New York, Okla. The victim of the alleged swindle, J. A. Tinsville, Civil War veteran, of Cowell, Mo., employed Burns detectives, who traced Baker to this city.

Tinsville says he met Baker at a hotel in Manitou Springs, Colo., several weeks ago and that Baker introduced himself as T. C. Putnam. They became friendly and one day found a pocketbook bearing the name of J. H. Maher. The pocketbook was returned and Maher gave them a "tip" on the stock market.

A third and unidentified man came into the deal and he, Tinsville and Baker agreed to form a pool to take advantage of the "tip." They went to Topeka, Kan., where they were met by a well dressed man who told them they had won \$500,000, but demanded that they show him their money as evidence of their intention to make good in case the stocks had gone down. The pool was exhibited in the form of a certified check. Next day Tinsville found that his companions and money had disappeared.

24 ENTRIES IN PULITZER TROPHY AIR RACE AT DETROIT, OCT. 14

Municipal Holiday Declared for Date When Special Record Is Expected to Be Made.

Special to the Post-Dispatch.

NEW YORK, Aug. 29.—Twenty-four entries have been made for the Pulitzer trophy race, Oct. 14, the Detroit aviation society announced yesterday. Experts who have watched experimental flights of many of the planes entered are confident a new world's speed record will be established. The Pulitzer trophy race is being advertised as the feature event of the national aviation congress and national airplane races. The date has been proclaimed a municipal holiday at Detroit.

A mammoth grand stand is being built at the starting and finishing point at Selfridge field, Mount Clemens, Mich. The course is triangular and with the exception of Selfridge field, all its 40 miles is over the waters of Lake St. Clair. The flight distance is four laps of 10 miles.

"Interest in aviation has never been so great as at the present time," an officer of the Detroit club said yesterday. "We expect 100,000 visitors in the city."

"The national aviation races this fall will be as important as the national motor shows were in early days, because they will bring out the qualities and defects in the various types of machines. That is why various foreign governments are watching the events here so closely."

One of the blue-ribbon events will be the Curtiss marine flying trophy race Oct. 7. More than a dozen sea planes and flying boats have been entered so far for this classic of marine aviation.

Support Ordered in Case of Woman.

An inquest has been ordered in the case of Mrs. Mary Mueller, 32 years old, wife of George Mueller of 2200 Main street, who died at her home last Friday. Two doctors refused to issue burial certificates and certified the case to the coroner. Policemen reported Mrs. Mueller had called in one physician two weeks ago and he treated her. Pneumonia set in later and another doctor was called Friday.

GREY COEUR TOWER AS AIR
MOORING MAST CONSIDEREDNavy Aid Chief Receives Suggestion
From A. W. Perkins, Manager of
U. R. Company.

WASHINGTON, Aug. 28.—Rear Admiral William A. Moffett, Chief of the Bureau of Aeronautics of the navy, is giving favorable consideration to a suggestion received today from A. W. Perkins, manager of the United States of St. Louis, that the observation tower at Creve Coeur Lake be utilized as a mooring mast for the ship ZR-1 on its expected flight across the continent next year.

The admiral said he would write to Perkins today for additional information about the tower. Off-hand, he gave the opinion that with the addition of a swivel gear at the top it seemed eminently possible that the tower could be converted into an acceptable mooring mast. He would not commit himself definitely, he said, till he had consulted with construction men of the navy.

If, after further examination, the suggestion will look practicable, Admiral Moffett said, either he or one of his assistants would go to St. Louis to inspect the tower, provided

the necessary traveling expenses were paid by the city. Admiral Moffett complimented the letter from Perkins, which he said was refreshingly businesslike and exact in what it had to offer. He expressed gratification at the interest shown by St. Louis in the projected flights of the ZR-1. A naval man from whom the correspondent sought an opinion said that Perkins' plan on its face appeared feasible. He thought, however, that the tower probably would have to be strengthened with guy cables to enable it to resist the pull of the giant airship when moored to the top.

Schools Abandon Military Training

St. Louis, Aug. 28.—Ending a controversy of more than a year's standing which took its toll through the polls and caused several organizations to be formed, military training in the high schools will be abandoned when school reopens this fall, the school board has voted. An extensive physical training course will supplant the training. The school board refused to take military training from the high schools, and private organizations obtained the permission of the City Council to conduct a referendum at the last primary election.

SOVIET NEGOTIATING FOR SALE
OF ART VALUED AT \$25,000,000Wealthy American Approached on
Possibility of Disposing of Some
of Paintings in U. S.

LONDON, Aug. 28.—The Russian Government has begun negotiations for sale of old masters, valued at \$25,000,000, from the State museums and palaces, the Post-Dispatch learns in reliable quarters today. This news follows announcement that the Russian Crown jewels are on the market.

A well known bolshevik diplomat approached a Paris dealer with the sale proposition a few days ago, but the transaction was held up by a dispute over the price. The value of \$25,000,000 was placed on the paintings by the dealer. It is said the Soviets demand a much higher price. At least one wealthy American has been approached regarding the possibility of selling some of the paintings in America, the only country at present in the market for such high-priced masterpieces. But there is a question whether Americans would be allowed to bring the paintings into the United States. The Washington Government has so far refused to recognize

the Soviet's right to czarist property and might not admit such paintings through the customs or recognize their sale to Americans.

Was Mason for 74 Years.
Special to the Post-Dispatch.
RICHMOND, Va., Aug. 28.—The body of Dr. John Charles Edwards, 95 years old, who died Saturday, has

been sent to O'Fallon, Mo., for burial. Dr. Edwards was a native of Virginia, but resided in Missouri more than 80 years. He was graduated in medicine from the University of Virginia in 1853 and practiced his profession in St. Charles County, Mo., until a year ago, when he returned to Virginia to live with his daughter, Mrs. Horace McCheser.

GIRLS! LEMONS
WHITEN THE SKINRecipe for Bleaching Lotion
Which Does Not Irritate

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then shortly note the beauty and whiteness of your skin. Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

Dress Your
Eyes in Style

Erker's new refinements in the shapes and dimensions of eyeglass and spectacle lenses give a latitude to individual taste and requirement not accorded to any extent in the past. Lenses, rimless or with appropriate frames, may be ordered—round, oval, Boston or Colonial.

A Spectacular Finale to
the August Economy Sales!

Sonnenfeld's

610-612 Washington Avenue

A "Thank You" Sale and
A Great One It Will Be!

Great Sale Fur-Trimmed Coats

\$165, \$150, \$135, \$125, \$115 and \$95 Models—Choice for

Seven
Models
Are
Pictured.

The extraordinary success of the 1922 August Economy Sales can be explained in two short words—value-giving. Seldom have we gone to such extremes to convert an otherwise dull month into one of intense selling. And now for the last two days we have planned an unforgettable climax. Four whole weeks have been spent in preparation. An event that will be history-making, even in the economy series—one that will serve as a memorable conclusion to the entire economy list—one that will be long remembered and awaited in future years with keenest enthusiasm by those who attend.

Reserve Your Coat Now

—by making a small deposit—the balance
to be paid when you need the coat.

All Sizes for Misses and Women

See
the
Window
Display.

In every detail the excellence of these Coats is pronounced. The magnificent materials, the superb furs, the fine silk lining in every garment, are a few of the qualities not to be surpassed in any collection of Coats. The kind of Coats whose superiors, yes equals, will not be shown all season.

The Materials

Marvella Gerona
Preciosa Marcova
Panvelaine
Duvetyn Tarquina
Hamara Marleen
Velverette

Fur Trimmings

Natural Squirrel
North American
Beaver
South American
Beaver (Nutria)
Caracul
Fox Wolf

In the majority the lavish fur trimmings around the bottoms, cuffs and collars, represent a cost, if purchased now, much in excess of tomorrow's sale price—not to mention the worth of the materials and workmanship. Probably the greatest sale of Coats any store in this or other cities will announce all season.

\$50,000 JUDGMENT FOR REALTY FIRM REVERSED

Decision Against New York Concern on Indemnifying Bond, After Trial Here, Turned Back.

Special to the Post-Dispatch.

JEFFERSON CITY, Aug. 29.—Fifty thousand dollars judgment for the Blanke Realty Co. against the American Surety Co. of New York, on an indemnifying bond, was reversed by Division No. 2 of the State Supreme Court yesterday in an opinion by Judge David E. Blair.

The case was tried in the Circuit Court of St. Louis. The American company provided a surety bond in 1912 by which it guaranteed fulfillment by the Marx Realty and Construction Co. of a contract to erect, by June 15, 1917, a hotel or business building at a cost of \$200,000 on a tract in St. Louis leased to it by the Blanke Bros. at an annual rental of \$16,000.

In 1914, the Blanke Bros. forfeited the lease after the Marx company had failed to pay taxes for two years, and after it had missed payment on rent for one quarter.

Judge Blair wrote that by forfeiting the lease and resuming possession of the property two years before expiration of the contract period, Blanke Bros. had rendered it impossible for the lessee to comply with their contract, even had they desired, and ordered the judgment reversed.

News of the death in Baden-Baden, Germany, of Joseph M. Schnalder, 44 years old, once a well-known St. Louis brewer, has reached his brother here, Walter L. Schnalder.

Schnalder's Garden long ago was a popular resort in St. Louis. For 30 years Schnalder has lived in Mexico, and last fall he entertained the Chamber of Commerce party which toured Mexico at his home in the suburbs of Guadalajara. On removing to that country he had established a business in Monterrey, where he became first president of the local American Club.

He was the son of the late Joseph M. Schnalder and Mrs. Elizabeth Schnalder, who lives at 21 Portland place. He leaves also his widow, Mrs. Josefina M. Schnalder, two sons, three daughters and 11 grandchildren, all of whom reside in Mexico, and besides the brother, three sisters.

MAID FOUND HURT BY ROAD REFUSES TO DISCUSS THE CASE

Helen Jackson, suffering Fractured Skull, Declines to Talk During Lucid Interval.

The condition of Helen Jackson, 21 years old, the housemaid who was found unconscious because of a fractured skull on Clayton road near the city limits Sunday night and who has refused to give an account of how she was injured, remains serious, but is not critical. It was said today at Barnes Hospital. She has had lucid intervals, during which she has declined to discuss what happened.

Detectives are working on the theory that she jumped or was pushed from an automobile, but in view of her reticent attitude, are making little progress. Her sister, Miss Martha Jackson, 18, also a housemaid, who has attempted to aid the police, has been unable to induce her sister to tell how she was injured.

PASTOR ASSUMES NEW DUTIES

The Rev. Frank G. Beardsley Is Now With Fountain Park Church.

The Rev. Frank G. Beardsley, who succeeds the Rev. F. W. Leavitt as pastor of the Fountain Park Congregational Church, arrived with his wife and seven children yesterday from Aurora, Ill., his former home. A committee from the church met the Rev. Mr. Beardsley and his family at Union Station and escorted them to a home he had purchased at 5076 Vernon avenue. He will preach at the Fountain Park Church next Sunday.

He is a graduate of Oberlin Theological Seminary and entered the ministry in 1897. The Rev. Mr. Beardsley has written several books including "The Builders of a Nation," "A History of the Pilgrim Fathers," published last year, and "History of American Revivalism," which won the George Wood prize and gold medal of the American Tract Society of New York in 1904.

ESCAPING GAS CAUSES DEATH

Flame of Jet Extinguished by Coffee Boiling Over While Man Slept.

Special to the Post-Dispatch.

LITCHFIELD, Ill., Aug. 29.—Love for coffee before retiring caused the death of Harley Atwood, 80 years old, a Stanton baker. His body was found this morning in the kitchen at the home of his wife's parents, Mr. and Mrs. Banion, at Hillsboro.

Atwood always drank coffee before retiring. He put the coffee pot on the gas stove last night, and after lighting the gas, fell asleep. The coffee boiled over and put out the flame. The gas fumes killed him.

STRIKERS OPERATE SPECIAL TRAIN.

Special to the Post-Dispatch.

KANSAS CITY, Mo., Aug. 29.—Brought from Slater, Mo., to Kansas City this morning aboard a special Chicago & Alton train, operated by strikers, despite the tie-up on that line, Roy H. Guinn, a rural mail carrier, was operated on at Research Hospital today within an hour after the train had pulled into the Union Station. Physicians had declared that only an immediate operation would save him. Neither the crew nor the company will be reimbursed for the use of the train, consisting of an engine and mail car.

STREET DANCE IN CARONDELET

Merchants Sponsor Community Event This Evening.

A free community street dance, sponsored by Carondelet merchants, will be given this evening on the two blocks of Ivory avenue from Steins street to Courtis street, beginning at 8 o'clock.

The Arrangement Committee, of which Alderman Charles Neumann is chairman, has provided an orchestra, hundreds of electric lights, and other features which they believe will attract a crowd. The object is to create a better community spirit.

and afford an opportunity for the merchants and their patrons to become acquainted in a social way.

The two blocks will be closed to traffic, and a special detail of police has been provided to prevent disorders and aid in handling the crowd.

Police Take Charge of Boy, 13.

Police took charge of a 13-year-old boy whom they found near Ninth street and Allen avenue yesterday begging 3 cents each from pedestrians passing the corner. The boy said he was ambitious to open a savings account in a South St. Louis bank and was trying to get enough pennies to start the account.

PART TWO.

TWO-STATE 'ARMY' SHOWS BENEFITS OF MONTH'S WORK

1200 Newly Set-Up Youths From Missouri and Arkansas "Graduated" at Jefferson Barracks.

PHYSICAL BETTERMENT A MARKED FEATURE

Efficiency of Drill Accomplished at Training Field in Short Time Regarded as Remarkable.

The benefit of a month's military training was clearly visible in the appearance and actions of more than 1200 Missouri and Arkansas youths who took part in "graduation exercises" at Jefferson Barracks yesterday of the 1922 Citizens' Military Training Camp held there during August.

Medical officers threatened visitors with statistics to show how the youths, whose average age is 19, had gained in weight, chest expansion and so on. It was not necessary. To one who saw the students arriving Aug. 1, their bronzed features yesterday told more than all the figures on the doctors' charts.

The first impression was that of the uniforms. Assembly day saw the arrivals changing from civilian clothing into semi-army attire of which blue and brown denim breeches included regulation O. D.'s, were the most conspicuous parts. And those army shoes! The first day they were worn they caused many a blister, despite the water and oil poured on to soften them.

All in Regulation Uniforms. Yesterday the uniforms were entirely regulation, with olive drab breeches neatly ending in leggings. The students were able to walk in natural fashion and without the "squeak-squeak, squeak-squeak-squeak" of boot leather. Yesterday of the Sixth Infantry, stationed at the Barracks, may scoff, but it was difficult for a civilian visitor to distinguish the students and the regulars during the detailed evolutions.

Many of the students came from high school and college, some with a pallor remaining from the winter's work. They are going back today and tomorrow with the hardy look of the outdoor man, stamped upon them. They slept in tents and were scarcely ever indoors unless at the St. Louis picture shows they occasionally visited, as part of the amusement program arranged by St. Louisans.

Acquired the Snap. They came, many of them, with rounded shoulders and poor carriage. Except for the comparatively few who had attended previous camps—whose bearing showed it—they were unfamiliar with military usage and their first attempts to salute officers were sometimes amusing. There was a snap in their salutes that the training had taught them how to carry themselves.

The extent of the instruction given seemed remarkable. In company drills held in competition the 12 companies of the provisional regiment went through detailed evolutions, and then the regiment merged and passed in review before Col. Halsey E. Yates, commander of the Barracks; Col. A. T. Perkins, general manager of the United States and State chairman of the Citizens' Training Camps Association, and Lieutenant-Colonel W. H. Clendenin, executive officer of the student camp.

Youths attending the camp for the first time were in the "red" course and formed the rank and file. Nearly 300 who attended the 1921 camp were in the "white" course and served as noncommissioned officers. About 35 who went to last year's camp and had previous military service acted as student officers sometimes and are now eligible for examination for commissions as Second Lieutenants in the reserve.

Spots Also On Program. Yesterday morning the exercises included competitive individual drills in the manual of arms, squad drills and platoon drills. Entries from each of the three battalions competed in four unusual "races" in the afternoon, while the grandstand, filled with their mates, cheered and the Sixth Infantry Band played in intermissions.

First was the skirish race. Eight men were in each heat, armed with regulation army Springfield rifles and carrying blank cartridges with reduced powder charges. Each advanced 10 yards at a signal and fired five shots, standing; another 10 yards and five shots, kneeling; another 10 yards and the same number of shots, sitting down; another 10 yards and five shots, lying down; and a final 10 yards and the fixing of bayonets as the contestants took the position of guard. All the students had received rifle instruction on the short range.

In the rescue race students carried each other 25 yards, with full equipment, except rifles. In the equipment race contestants picked up their kits, bayonets and other equipment and attached them as they ran. The obstacle race was over hurdles camouflaged to look like brush. Small cash prizes were awarded the winners of the races.

Afterwards Col. Yates awarded a gold medal to the student in each company, without previous military training, who made the best marksmanship record, and another one to the best marksmanship of each company who had previous training. Then bronze medals were awarded for the Military Training Camp Association to students who had made the best all-round records.

"They sure worked us harder this year than they did at Camp Pike last year," remarked a "white course" student. "Are you coming back next year?" he was asked. "You bet I am," he replied, and that was the answer of most of the students.

OKLAHOMA REPUBLICANS ASK FOR VOTES OF 'REAL DEMOCRATS'

G. O. P. Convention Appeals to Those Opposing Attempts to 'Hold' Oklahoma City, Ok., Aug. 29.—Appealing to the "real Democrats" of the State who "stand for orderly constitutional government," as opposed to those who supported the State Democratic platform "designed to hold the radical Socialist vote," the Oklahoma Republicans yesterday declared in the platform adopted at their convention that "we frankly solicit your votes to the end that our State may be saved from disgrace and disaster which will inevitably follow the placing of radical leaders in power for the purpose of protecting the present Governor and his associates from the consequences of their misdeeds."

"Real Democrats hold the balance of power. Our candidates cannot be elected without their votes," it was stated in the platform. Miss Alice Robertson of Muskogee, Republican Congresswoman, was chairman of the convention. "Clean out the State House with us," was the slogan announced by James A. Harris, national committeeman, in an address he said was aimed at independent voters.

Full equality for women in party affairs, including the appointment of a national committeewoman to act with the same power vested in the national committeeman from Oklahoma, is provided. Women are given equal representation in the congressional, county and State organizations.

WAR DEPARTMENT RULING ON RECEIPT OF FOREIGN AWARDS

Special Congressional Authorization Will Be Required for Decorations From Now On. WASHINGTON, Aug. 29.—Incident to the expiration of time fixed by Congress during which army officers and men could receive decorations awarded by foreign governments, the War Department announced today that future awards would require special congressional authorization before they could accept.

A tabulation by the department shows that it conferred 7169 decorations to officers and men of the United States army who served during the war and 703 to the allied forces and civilians. Foreign decorations received 17,787 foreign decorations, including those presented to American welfare organizations and citizens.

France awarded 14,089 decorations to Americans; Great Britain, 213; Belgium, 75; Russia, 53; Italy, 87; Japan, 45; China, 35; Cuba, 16; Serbia, 45; and others included Cuba, Czechoslovakia, Greece, Lithuania, Monaco, Montenegro, Panama, Poland and Portugal.

Hopes to Free Japanese Women.

Special to the Post-Dispatch. TOKIO, Aug. 29.—To fit herself to lead the women of her race to independence, Princess Tarahata Kikura, daughter of the former Sultan of the Philippines, is aboard the "President Lincoln" on her way to the United States, where she will enter the University of Illinois to study politics. "I'll learn to lead the women in the independence movement," she explained.

Carelessness Took 76,000 Lives

In 1920; Toll From Autos, 11,000

the Associated Press. DETROIT, Aug. 29.—CARELESS Americans took 76,000 lives in 1920, a life every six minutes, a report of the National Safety Council made to the eleventh annual safety congress here yesterday disclosed.

While the 1920 toll from all public and industrial accidents was a decrease of 3300 under 1911, the beginning of the decade, the balance on the credit side of the 1920 ledger was only 400 over the 1919 figures.

In 1920 there were 1200 more deaths from automobiles than in 1919. Thirty deaths a day, a total of 11,000, was the record of automobile fatalities in 1920. Reports now available indicate an increase in 1921.

People died from falling accidents of all kinds at the rate of 34 a day in 1920. Burns claimed 22 a day, a total for the year of 8088 and an increase of 215 over 1919. Other major causes of accidental deaths were railroad accidents, 7769; drowning, 6066; gas, 3618; firearms, 2767; mine accidents, 2660; machinery, 2660; street cars, 2128; other vehicles, 2022; conflagrations, 1277.

Accidents in industry showed a decline of 1.3 deaths a 100,000 population for each year of the 10-year period, while public accidents decreased 1.1 per cent. In round numbers, 55,000 men and 21,000 women were killed in accidents in 1920.

HOUSE SAYS PREMIER STATES ENGLAND WILL PAY U. S. DEBT

Former Adviser of Wilson Has Breakfast With Lloyd-George—Cox's German Plan Favored. LONDON, Aug. 29.—Prime Minister Lloyd-George in conversation with E. M. House, who breakfasted with the Premier this morning, reiterated Great Britain's intention to discharge her present debt to the United States to the last farthing. House told the Associated Press. House, in an interview printed by the Morning Post is quoted as having said he is in complete agreement with the suggestion of James M. Cox, for finding means to deal with the German situation. He did not know whether Mr. Cox's idea was feasible and could not judge whether it was likely to be adopted by the American Government. He welcomed the proposal, however, as it was obvious something must be done quickly and Cox's plan was something tangible.

House's visit to Downing street, following so closely on that of Cox, is of considerable interest, comments the Westminster Gazette's parliamentary correspondent. This correspondent says he hears Cox's views excited considerable official interest, but were not regarded as practical.

It is asserted by the correspondent that there is growing opinion that it may be best to let Germany manage her own affairs, provided she promise fulfillment of the alleged demands.

PROFITEERS OWE SOLDIERS A BONUS, CAPPER DECLARES

Kansas Senator Would "Like to See Government Recover Millions Stolen by Crooks and Grafters."

SUGGESTS USE OF INTEREST ON DEBTS

"International Bankers Want Us to Wipe Out Foreign Debt to Make Their Securities Stronger."

WASHINGTON, Aug. 29.—Announcing his support of the soldiers' bonus as nothing more than a square deal for the boys who did the fighting, Senator Capper, Republican of Kansas, told the Senate today that "war profiteers and peace profiteers owe a bonus to the soldiers."

"There is no better guarantee against militarism than to require the men who profit out of war to pay for it," he said. "Those who remained at home made enough here in the United States to enable us to pay many times over the debt we owe to the men who fought our battles. Wall street wants to pay it with a sales tax which would be paid largely by the farmers, the laboring people and others in the form of a tax on food and clothing and other necessities."

"Millions of Dollars Stolen." "Profiteering during the war produced one American millionaire for every three American soldiers killed in France. I would like to see the Government recover the hundreds of millions of dollars stolen from the Treasury by the crooks and grafters who profiteered off the Government in war contracts, and then use that money to pay the soldiers' bonus."

"Then there's another way we can raise the money. Let's go after the billions that the foreign governments owe us, collect the interest promptly and pay it to our soldiers. There is no use disguising the fact that our international bankers want us to wipe out this foreign debt. It will make their foreign securities much stronger. If we decline to cancel this debt, these Governments probably will try to borrow money from us to pay us what they owe. So far as I am concerned, I will never vote to cancel one dollar of that debt and I will never vote to lend another dollar of Government funds to any foreign nation."

Refers to Chamber of Commerce. Senator Capper said the most powerful influence against the bonus was the United States Chamber of Commerce, which, he charged, had sent a referendum of its membership, not upon the measure before Congress, but upon a measure of its own "connecting."

"Only 55 per cent of the chamber's membership voted upon the proposition," he continued, "and a large proportion of these votes came from the large centers of industry. In spite of this, only one proposition out of the four received less votes in favor than it did against, and of the total votes on the four propositions submitted, 4116 votes were cast in favor of all propositions to 2657 against them."

Half a dozen or more amendments remain to be acted upon before the Senate votes on the bonus bill. Amendments include the Smith-McNary \$350,000,000 reclamation plan, the Smoot sales tax proposal as a means of raising the necessary money, the Smoot paid-up insurance plan in lieu of all options, the Bursum half credit proposition and two proposals by Senator Walsh, Democrat, of Massachusetts, a cash bonus and a plan under which the veterans could apply their bonus money on the premiums of their converted Government life insurance.

Discussion Limited. The unanimous consent agreement limiting discussion on amendments to 20 minutes to each Senator became operative today. Senators Wadsworth of New York and Sterling of South Dakota, Republicans, voiced their opposition to the bonus yesterday, although Senator Sterling supported the reclamation project. Senators Nicholson, Republican, of Colorado, and Heflin, Democrat, of Alabama, supported the bonus yesterday. The amendment, Senator Nicholson attacked the business men opposing the bonus, mentioning particularly the United States Steel Corporation and the Standard Oil Co.

Senator Wadsworth was particularly vigorous in his attack on the measure. He declared that the bonus could be financed only through taxes now or later, and that American people had reached a limit in the burden they could bear.

ARMY AIRSHIP C-2, WHICH WILL STOP AT SCOTT FIELD, BELLEVILLE, ON FIRST TRANSCONTINENTAL FLIGHT ATTEMPT

Placed on Route for Initial Attempt at a Transcontinental Trip.

The United States Army airship, C-2, now being conditioned at Langley Field, Hampton, Va., will start for Los Angeles on or about Sept. 1, on the first transcontinental flight attempt in this country. The official route of the flight will bring the C-2 to Scott Field, Belleville, where a stop will be made. Other stops will be at Akron and Dayton, O.; Lawton, Okla.; San Antonio, Marfa and El Paso, Tex.; Yuma, Ariz., and Los Angeles. The distance is approximately 3500 miles, and a return trip will be made over the same route.

Lieutenant James C. Cluck, A. S. advance officer for the flight, was at Scott Field a few days ago and arranged for the proposed landing there and for care of the C-2 upon her arrival at that station. He is now at Fort Sill, arranging for the stop at Lawton.

Use Route in Future. It is the opinion of officers of the Air Service that the route outlined above will in the near future be used extensively by transcontinental commercial airships of the rigid and semirigid type, and will in all probability necessitate the location in or near St. Louis a large station to become the midcontinental landing point of these giants of the air that will no doubt soon be flying on commercial schedules from coast to coast.

The flight of the C-2 will be in the nature of a race with a heavier-than-air machine. On the day the C-2 starts from Langley Field, Lieut. James Doolittle, the army flier who recently attempted a one-stop flight from Pablo Beach, near Jacksonville, Fla. to San Diego, Cal., but met with an accident, plans to take the air in a reconstructed De Havilland plane at Pablo Beach and fly to Los Angeles, by way of Kelly Field, San Antonio.

The airship C-2 is 192 feet long, 54 feet wide and 56 feet high. It carries a crew of six men and has two Wright motors of 150 horsepower each, which gives it power for a speed of 60 miles an hour. This airship recently made an all-night cruise from Washington, D. C., to New York, proving the practicability of airships to fly at night and remain in the air for many hours.

Crew Personnel. It will be manned by Maj. H. A. Strauss, commander, and Capt. George W. McEntire, Lieut. O. A. Anderson, Lieut. Don L. Hutchins, Sergt. William A. Fitch and Staff Sergeant August D. Albrecht, all of the Aviation Service, and all of whom have had wide experience in handling and flying airships of all types.

Hydrogen will be used in the envelope, built to carry a load of 8750 pounds. The C-2 will not attempt the flight with the capacity full, but will travel as light as possible. It was said at Langley Field that it was hoped the round trip would be completed by Oct. 15.

SCOTT FIELD IS A STOP ON LONG AIR FLIGHT

Placed on Route for Initial Attempt at a Transcontinental Trip.

The United States Army airship, C-2, now being conditioned at Langley Field, Hampton, Va., will start for Los Angeles on or about Sept. 1, on the first transcontinental flight attempt in this country. The official route of the flight will bring the C-2 to Scott Field, Belleville, where a stop will be made. Other stops will be at Akron and Dayton, O.; Lawton, Okla.; San Antonio, Marfa and El Paso, Tex.; Yuma, Ariz., and Los Angeles. GERMANY WILL EXPLAIN HER STAND ON REPARATIONS

Invitation of Commission to Send Delegate to Attend Wednesday's Session Is Accepted by Council.

SCHROEDER GETS THE ASSIGNMENT

Finance Ministry Representative Has Left for Paris, Accompanied by Karl Bergmann and Other Experts.

By the Associated Press. BERLIN, Aug. 29.—Germany has accepted an invitation to send a delegate to Paris to attend Wednesday's sitting of the Reparations Commission. This was decided upon at a ministerial council yesterday, which was presided over by Chancellor Wirth.

The Government, in informing the Reparations Commission of the acceptance of the invitation, announced that Herr Schroeder of the Imperial Finance Ministry, has been selected to put forth Germany's stand on the question of reparations.

Schroeder, accompanied by Karl Bergmann, former Under-Secretary of the Treasury, and other experts, left Berlin last night for Paris.

Considerably Less Talk of Isolated Action by France. PARIS, Aug. 29.—The Reparations Commission met again yesterday in an effort to reach a unanimous agreement regarding the German request for a moratorium on her indemnity payments. At the end of several hours of discussion the British and French viewpoints were still widely at variance, with the Italians and Belgians merely trying to find some one of a number of proposals suggested which would meet the ideas of France and Great Britain.

Two projected solutions were discussed. The Belgian plan was now unofficially offered by the Belgian delegation as a means of preventing a break between England and France on the reparations issue. Under its terms the stipulated sum of 10,000,000 gold marks from the remaining cash payments due this year, amounting to 150,000,000 gold marks. As a guarantee of ultimate payment Germany would deposit 10,000,000 gold marks from the reserve of the Reichsbank in the Bank of England. England and Italy have approved of the proposition.

The German plan, the second scheme, would require Poland to care's demand for allied control of German state mines and forests by a guarantee to France of the products of these resources during the moratorium. Failure to deliver promptly the stipulated sum and coal would result in the seizure of certain mines which would be designated in the agreement. British approval is behind this arrangement.

The British continue to emphasize their belief that Germany owes everything she can to meet the French point of view.

The French official position continues to be that full control of the German mines and forests must be handed over to the allies in return for a moratorium. However, there is considerably less talk of threatened isolation.

Austrian Foreign Minister to Place Situation Before League. By the Associated Press. VIENNA, Aug. 29.—Dr. Alfred Grunberger, minister of foreign affairs has departed for Geneva to place the League of Nations. It is understood he will urge immediate financial assistance and that the crisis in the country will not permit of delay.

Germany Reported Willing to Submit to Financial Control by Americans. (Copyright, 1922.) LONDON, Aug. 29.—Berlin reports that Germany is willing to submit to a financial investigation and control by Americans acting under the Reparations Commission only if they intensify interest in the state-mint given out here Saturday by James M. Cox. Commenting to the Post-Dispatch on the Berlin suggestion that Frank A. Vanderlip take this position, Cox said: "I have no pride of authorship. I suggested Hoover as holding the confidence of all European nations involved. I have a high regard for Vanderlip. I take it Berlin desires to have the two men co-operate, one as an economic statistician of high ability, the other as a financier equally well thought of."

Vanderlip himself says of the proposal to make Americans virtually receivers for Germany. "It seems to me it will be impossible to appoint any one man as receiver for 60,000,000 people. Moreover, it is generally the creditors, not the debtor, who appoint the receiver."

HEFLIN CALLS GOV. HARDING 'WALL STREET TOOL' IN ATTACK

Alabama Member Continues Attack
Against Reappointment of Fed-
eral Reserve Board Head.

WASHINGTON, Aug. 23.—Continuing his attack on Governor W. P. G. Harding, who it has been reported, may be reappointed, Senator Hefflin, Democrat, Alabama, declared in the Senate yesterday that "only two Senators from the South and, in my judgment, not more than that number from the West," would vote to

confirm the Governor's reappointment. Senator Hefflin told the Senate that while the board's "deflation policy" had forced "millions" from the pockets of the producers, the 12 Reserve Banks paid out in salaries in 1922 a total of \$19,985,558, or \$18,219,118 more than the salaries paid in 1918.

"SCANDALS" TRAVELS ENTIRELY ON ITS FEET

George White's Latest a Daring
Show of Nothing—A Little of
Both, Says Brown.

By HEYWOOD BROOKS,
Drama Critic of the New York
World.

NEW YORK, Aug. 23.—"George White's Scandals," which came to the Globe Theater last night, travels almost entirely on its feet. The new revue is a dancing show of nothing, as a matter of fact, it is a little of both.

White uses his own talents shrewdly and contributes a marvelous dance. Either Allen does some amazing acrobatic stunts and there is an engaging number by Charles Wilkes. Indeed, the show reaches the highest point at the end of the first act, when everybody dances to the music of Paul Whiteman's Palace Royal Orchestra. At such a time the dainty humor of the piece and the nouveau riche scenery is forgiven and forgotten.

Incidentally, Whiteman and his orchestra manage to take over a considerable section of the evening to excellent purpose. They were wildly received by the first night audience. Broadway is by no means indifferent to music if it happens to be jazz.

Highly Complex Jazz. The jazz of the Whiteman orchestra is for the most part a highly complex and sophisticated art form. Still nobody seems to mind or to grow self-conscious about it. Perhaps the popularity of this music may be traced to the fact that there are as yet no friends of jazz or any similar organization to point out to the public its duty and obligation to be enthusiastic.

To be sure our intellectual weeklies have been taking up jazz in a serious way for several years, but Broadway has not yet heard about it and remains untroubled. W. C. Fields, once of the Ziegfeld forces, manages to get some fun out of a trick automobile, but his baseball act is almost ingeniously unhumorous. In fact, practically everything of humorous intent falls flat but there is almost always a relief expedition on hand ready to dance in and save the day.

"The Gingham Girl" Refreshing. If there is a place left on Broadway for musical comedy of sweetness, "The Gingham Girl" will play around the Earl Carroll theater for many a day to come. Here, with its re-creation of individual performers takes no part in this new piece presented last night for the first time in its place we find a refreshing, certainly a welcome leaning toward the presentation of lovely melodies and a lightly sentimental story of a girl and a boy from Cromwell Corners, New Hampshire.

There is something recalling "Irene" in the path the story takes. Like it, "The Gingham Girl" at no time allows itself to gush. In the score which Albert Von Tilzer has made for it there is daintiness and haunting beauty to carry home with you. "As long as I have you," is, we think, a little gem.

There is nothing spectacular, or huge or terrific about it. Mary Thompson (Helen Ford) of Cromwell Corners had ambition, so she set out to bake cookies and make fortune. John Cousins, her Jay Gatsby (Eddie Buzzell), likewise had ambition, and he went to New York to become rich. In the last two acts they're here and you follow them through as if they were sister and brother.

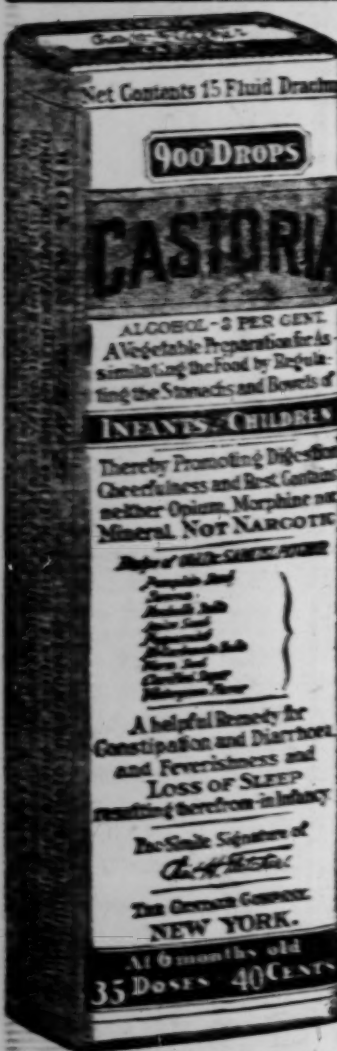

Humor Keen and Clean. Mr. Buzzell's humor is keen and clean and has only one intent throughout. At any rate, his performance as the country boy who turned slicker is excellent comic stuff. Miss Ford and Allan Edwards, the handsome juvenile novel extract, and the Smith sisters, comedienne, and Amelia Summerville, Helen Coyne and Henri French, remarkably agile eccentric dancers, and even Bertie Beaumont, who has not changed her act yet, contribute to a generally funny and satisfying evening. Not one of the gay little ladies of the chorus ought to be left without personal mention but their names are not found on the program. They are super-clappers, and they dance all over the place.

RECORD FINE OF \$200 AGAINST BOULEVARD STOP LAW VIOLATOR

Heavy Penalty Assessed After Driver's Statement of Insurance to
Appeal Case.

Daredevil of the boulevard stop law cost Carlyle E. Schnell, 1008 Market street, a fine of \$200 in Police Court No. 1 yesterday afternoon, the highest fine imposed since the law went into effect. Schnell also led the list in a record case docket of 252 cases in the court yesterday. Schnell was arrested at McPherson avenue and Lindell boulevard. A policeman testified that Schnell admitted running past the stop, but justified it by saying the law was unconstitutional and he was going to use his efforts for its repeal. He appeared without an attorney and refused to be sworn, telling Provisional Judge Powers he "couldn't get justice in American courts."

A declaration by Schnell that he would appeal, made before a decision was announced, brought a remark from Judge Powers that the fine in that event should be worth while. Other boulevard stop cases numbered 181, of which 19 were continued, four defendants fined \$5 to \$100 by default, and the remaining 159 released after assessment of 12 cases in each case. Sixty-one were assessed \$25 costs on charges of violating automobile, light regulations. Thirty-five others were fined on various traffic charges.

ST. LOUIS POST-DISPATCH

SPORTS, MARKETS,
WANTS, REAL ESTATE

PAGES 17-24

ST. LOUIS, TUESDAY EVENING, AUGUST 29, 1922.

WHAT DID YOU SEE
TODAY?

**Volunteer Reporters Tell the Post-Dispatch
of the Interesting, Unusual and Often
Humorous Incidents They Encounter.**

THE BRIDE, in her housekeeping and marketing ordeals, is the theme of numerous writers of What-Did-You-See incidents. Most of those who write of young Mrs. Newlywed's odd mistakes are women, some of whose names indicate that they have been through such experiences themselves, while others seem to be without experience, but confident that they will not make absurd blunders when their time to manage a home comes.

WHILE IN IT.
I saw a young bride in a fruit store, holding a cantaloupe to her ear and shaking it. She seemed to have confused the method of testing cantaloupes with that of "vining up" a melon.
VERA KUEMMEL,
3900 Humphrey street.

THEY CAN THROW.
Although a space of about six feet separates the upstairs porches of two houses, the following episode occurred the other day: Mrs. A.: Do you think this dough is right for noodles? Mrs. B.: I can't tell unless I feel it. Throw it over. And the ball of dough was hurled over and back without accident.
MRS. H. STEVENS,
8311A Folsom avenue.

ROMANCE AND REALITY.
The noon-hour "rush" was on and office buildings were pouring out their occupants, to be swallowed up by cafeterias and restaurants. From curb to building line the crowd surged, and amid the din and clatter a sweet young pair, holding hands, looking into each other's eyes and sighing. Then they ran into a woman carrying a baby.
WILLIAM SCHUMM,
724 Dover place.

chocolate icecream, a cup of coffee, a cake of yeast, a dish of vanilla icecream, three glasses of water, two rolls, and three vanilla wafers. To top off his lunch, he had stuck a cigar in the top of the patented sugar dispenser.
W. J. L.
(Credit Pure Milk Fund.)

CREAR THE AISLE.
Two ladies stood in a street car, arguing as to who should take a vacant seat. Then a young fellow got on the car and set down in the seat.
ROSE GROSS,
301 St. Louis av.,
Ferguson.

IN HARNESS.
I saw a woman in a department store with her young son securely fastened to her by means of a bride.
MRS. C. M. WEIL,
5762 Kingsbury place.

SMILE DIDN'T WIN.
A woman got on a street car and wishing the conductor a cheerful "good morning," went on in and took a seat. But perhaps the conductor wasn't in a happy mood, for he followed her and demanded her fare.
MISS R. JASUMBACH,
1442 North 19th street.

A UTILITY.
During a bargain sale of handbags, a young girl elbowed her way through the throng, picked up a bag, opened it, took out the mirror, rouged her lips and powdered her nose, and then replaced it, gained the outside of the crowd, and went on her way.
MISS A. V. PRICE,
4656 Page Avenue.

ABSENT-MINDED?
I saw an absent-minded man, after finishing his meal in a restaurant, stick the knife in his top-coat pocket and walk out.
W. O. JOHNSON,
5020 Idaho avenue.

A DECEPTIVE DOLL.
Two women, one with a character doll in her arms, the other with a baby, boarded a Broadway car. The conductor very considerably reached out to help the woman with the doll, while the other woman scrambled on as best she could with her infant.
MISS O. DEUBLER,
3658 South Broadway.

A BALLYHOO.
A street salesman was having a

difficult time trying to collect a crowd. A policeman came up to the corner where he was standing, and used the police telephone on the corner to make his report. People thought an arrest was being made, and congregated about the two men. The policeman walked away, and the salesman began his speech to the crowd.
ANNETTE RUBIN,
1900 Franklin avenue.

GET OFF THE LINE.
A young man at my house is a druggist. After being out very late last night he set his alarm clock for 7 a. m. When it sounded at the head of his bed in the morning he jumped up, crossed the room to the telephone, took down the receiver and said, "Jones' Pharmacy." Then he woke up.
G. STEVENSON,
4241W Lucky street.

CAN IT BE?
I went to a barber shop for a haircut and shave. It was a neat, clean shop and the barber did good work. After my hair was cut and the barber reclined my chair and lathered my face I saw a sign painted on the ceiling which read, "Ask for what you want. I do not bore anybody with 'extras,' such as tonic, shampoo, massage, etc."
M. L. K.,
Wichita, Kan.

UN ESPEJO.
I saw two Mexicans enter a hardware store near Union Station and ask for a "look me in the face." The clerk, accustomed to all kinds of languages and dialects, procured a mirror, and the men made their purchase.
MOLLIE PEPPER,
5783 Kingsbury pl.

A TESTIMONIAL.
I was in a store recently and the proprietor had to leave the store to get some change for a customer. The proprietor's small son remained with us, and when the father returned he exclaimed, "Father, they didn't take anything."
MISS S. PEPPER,
5783 Kingsbury pl.

ONE KIND OF MAN.
I saw a conductor help a crippled woman to the street curb. While he was doing that a man got on and sat down without paying his fare.
HAZEL BEYRAN,
5040 Benedict avenue.

EMPTY WORDS.
I saw a man getting off a Broadway car step on a straw hat which

had just blown from another man's head and crush it utterly. He picked it up, handed it to the other man, said "Excuse me," and walked on.
DUDLEY HARDER,
3245 Edgar street.

NOT A DOG SHOW.
At an air-dome I saw a man and woman, she carrying a Mexican dog, escorted back to the ticket window by the manager where their money was refunded.
C. UNGER,
(Credit Post-Dispatch Milk and Ice Fund.)

TAKE NO CHANCES.
I saw four children in Tower Grove Park on an outing. One child carried an alarm clock around her neck, and upon my asking the reason, she replied that they "had to leave for home at 4 o'clock, or suffer."
MATIE SCHWARZER,
4510 Arsenal street.

FROM MISSOURI.
In a grocery store I saw a bride bite into several ears of corn to sample them. She finally selected two that seemed to taste better than the rest.
M. T. PALINSKY,
2708 Thomas street.

A HELPMET.
I saw a young couple returning from a shopping trip. The man showed his tender regard for the woman by putting his arm about her waist, while she carried the basket full of purchases.
MRS. MARGARET MOEHLE,
3860 McRee avenue.

CHAPERONED.
I saw a bride and bridegroom start on their two weeks' honeymoon in a filver, accompanied by their parents and a sister.
FRANCES A. DAVIDSON,
Greenville, Ill.

STOOPTO TO CONQUER.
A young woman went into a clerkless store to buy some fruit. After she had gone past the turnstile she found the fruit wanted to her liking. She started to return, but the turnstile held her back. She had a transfer and was in a hurry to get out, but was told she couldn't get out until several others ahead of her had passed through the "exit" turnstile. Taking off her hat, she crawled under the turnstile through which she had entered, and dashed out of the store.
MRS. E. MEYERS,
2510 Bellegrade avenue.

A STAPLE.
A woman went up to a department store soda fountain and asked to see the menu. She read the menu from top to bottom, and ordered an ice-cream cone.
PAULA YAWITZ,
723A Westgate avenue.

IT MIGHT WORK OUT.
I saw a woman in front of the post-office walk away after mailing a letter. Then she returned, for she had forgotten to put a stamp on it. Dropping two cents in the mail box, she went away again, perfectly satisfied.
MRS. E. MILLER,
820 West Clay street,
Collinsville, Ill.

A FAIR TRADE.
I saw a little girl operating a lemonade stand. A watermelon peddler passed. The girl offered to swap a drink of lemonade for a slice of melon. The man agreed and the trade was made.
CHARLES PACE,
4217 Russell avenue.

STYLE BE HANGED.
I saw a man with a Palm Beach suit sit down on an iron railing that had been painted black. He went in a saloon, turned his trousers inside out and caught a street car home.
CHARLES PUTNAM,
6926 Bruno street.

NEEDED IT HANDY.
I saw a brand-new Ford being driven by a scared driver. Attached to the steering wheel was an instruction book on "How to Drive a Ford."
M. SEILL, 1817 Lami street.

FUGITIVES.
Two big rats ran out of a patch of weeds on a vacant lot. A woman walking ahead of me let out a yell and dashed for a nearby fireplug, where she roosted with her skirts drawn about her, until the rats ran away. She beat me to the fireplug by a nose.
E. H. WILLIAMS,
3907 Palm street.

RIGHT OF WAY.
An old cat that had lived in a building on Locust street was moved to another dwelling across the street, and her kittens were left in the old place. One morning traffic on Locust street was held up while Mrs. Cat brought her youngsters, one by one, across to the new dwelling.
HARRIETT M. HOPSON,
4176 Enright avenue.

AND NO MEAT ORDER.
In a cafeteria I saw a man who had the following things on his tray: A slice of watermelon, a dish of

You can buy it now for

Only \$445

The Stuyvesant Pianola

Two and a half years to pay

\$445 is a new price for the Stuyvesant Pianola—the lowest price at which this splendid Aeolian-made instrument has ever been offered.

And at the new price of \$445 it's the same "good old Pianola" it has always been—plus many improvements.

The Stuyvesant you buy now will retain its sweetness of tone and smoothness of action, just as those Stuyvesants do that, for ten to fifteen years and more, have been cherished possessions in dozens of St. Louis homes.

And you can own a Stuyvesant Pianola very easily, for you can divide the \$445 that it costs into many small payments and spread them out over two and a half years.

Come in and see the Stuyvesant—play it—test it in any way you wish. To do so will put you under no obligation whatever. If you can't come in, send the coupon.

BROWNS 1, INDIANS 1, AFTER 4 INNINGS: KOLP OPPOSES UHLE

By Dent Mc Skimming.
Of the Post-Dispatch Sport Staff.
By Exclusive Wire From Dunn Field.

CLEVELAND, O., Aug. 29.—Ray Kolp was on the mound for the Browns in the first game of the series with the Cleveland club. George Uhle pitched for the Indians.

This speaker's strained knee had not mended sufficiently to permit him to take his place in center field. George Connolly, a recruit from Little Rock, substituted for him. About 5000 persons attended.

FIRST INNING.

BROWNS—Tobin was called out on strikes. Foster flied to Woods. Sewell struck out Slater. NO RUNS. CLEVELAND—Jameson popped to Gerber. Wamby flied to Tobin. Connolly lined to Williams. NO RUNS.

SECOND INNING.

BROWNS—Williams popped to Gardner. Jacobson grounded to Sewell. McManus flied deep to Connolly. NO RUNS.

CLEVELAND—Gardner hit the center-field fence for a double. Sewell grounded to Slater. Gardner reaching third. Wood bounced a single off Foster's shin. Gardner scoring. McManus popped to Gerber. O'Neill walked. Uhle forced O'Neill. Gerber to McManus. ONE RUN.

THIRD INNING.

BROWNS—Severid singled to center. Gerber sacrificed. Uhle to McManus. Kolp was called out on strikes. Uhle knocked down Tobin's line drive, and his throw to first was wild. Severid scoring and Tobin reaching second. Foster flied to Connolly. ONE RUN.

Martinez Stops McKinnon.
NEW ORLEANS, Aug. 29.—Dude Martinez of Toledo, La., knocked out Ward McKinnon of Shreveport, La., in the fourth round of their 15-round fight last night at Frank J. Jr.'s Tulane Club. McKinnon entered the ring a 2-to-1 favorite. Russell Mauler won a 15-round decision over Ted Chaney and Joe Maranga knocked out Freddie Brewer in seven rounds.

Pitching Great Ball for Mobile

FRANK "DUTCH" HENRY.

Frank "Dutch" Henry, the southpaw, who was sent to the Mobile club of the Southern Association for further seasoning by the Browns, has made a wonderful record with Bert Niehoff's aggregation. Last averages of the dirt-cup show that Henry has won 15 games and lost only four, a winning percentage of .789. He has taken part in 22 contests. However, it is in efficiency that Henry's record stands out. In 149 innings he has permitted only 44 runs an average of 2.92 a game. He has allowed only 124 hits, an average of less than one an inning. This is unusual in these days of the lively baseball. The left-hander has shown good control, as evinced by 22 bases on balls. He has fanned 59 batters, hit seven and walked five wild pitches. Henry was obtained last season by the Browns from the Orlando (Fla.) club. He is at Mobile under an optional agreement.

O'LAUGHLIN WINS BOYS' NATIONAL TENNIS TITLE

BOSTON, Aug. 29.—David O'Laughlin, a Pittsburg boy, not quite 15 years old, became National boys' lawn tennis champion today when he defeated S. M. T. Hill Jr. of New Haven in the final match for the boys' tournament on the courts of Longwood Cricket Club. He won in straight sets, 7-5, 6-2, 6-1.

O'Laughlin's overhead shots gave him the victory. Hill lost several points on double faults, but was strong in his ground strokes. William T. Tilden II, national champion, refereed the match.

A new junior national tennis champion was created today when young Arnold W. Jones of Providence, R. I., won the final match of the title tournament on the courts of the Longwood Cricket Club. In the three sets he allowed Lewis N. White of Austin, Tex., only one game. The scores were 6-0, 6-0, 6-1.

Jones is a student at Yale.

Braves Purchase Pitcher.

By the Associated Press.
DES MOINES, Ia., Aug. 29.—The Des Moines Western League team announced the sale of pitcher Adrian Lynch to the Boston club of the National League. He will report Sept. 8. The terms of the sale were not announced.

Americans Lead In Four Matches For Walker Cup

Victory for U. S. Golfers Certain Unless English Players Rally in Second Round.

By the Associated Press.
SOUTHAMPTON, N. Y., Aug. 29.—The American amateur golfers lead their English rivals for the Walker Cup in four of the eight 36-hole matches today, when the first 18 holes had been played. The English were ahead in the other four, but since the Americans captured three of a quartet of four-rounds yesterday the invaders faced a tough uphill fight this afternoon. They would have to capture six of the eight matches today to win the trophy.

The four Americans in the lead when the balls had rolled into the eighteenth hole were R. T. Jones Jr., who was one up on Roger Wetherby; Charles "Chick" Evans, five up on John Caven; Francis Ouimet, four up on C. C. Avimer, and R. A. Gardner, 3 up on William B. Torrance.

Cyril Telford of England led Jesse Guilford of the United States two up in the feature match of the morning. The other three Britishers in the lead were C. L. V. Hoeman, who was two up on Jesse Sweetser; W. Willie Mackenzie, two up on Max R. Marston; and Bernard Darwin, one up on Capt. W. C. Keweenaw Jr. of the American team.

In yesterday's four-round competition the play of Guilford and Ouimet in defeating Telford and Darwin bordered on the sensational. In the afternoon round the Americans went out in 34, three under par. They had five birds in 41 holes. Guilford and Ouimet, after being down in the morning round, took the lead at the twelfth hole in the afternoon and were never headed.

The surprise of the day came when Evans and Gardner, former national champions, were defeated by Aymer and Wetherby. Sweetser and Jones won from Torrance and Hoeman, but only after a hard struggle. The American youngsters at one time led by 3 up, but this was cut to 2 up by the invaders. In the other match, Fownes and Marston won from Caven and MacKenzie, 2 up and 1, in the closest struggle of the day.

NO ENTERTAINMENT TILL AFTER BASEBALL SEASON

The Pennant Rooters' Club agrees with Lee Fohl, manager of the Browns, that certain forms of entertainment would not be for the best interests of the team and want to heartily assure you that this organization, which is city-wide, will do nothing that will in any way interfere with the success of our team. We take no steps without the complete sanction of both management and players. Our reason for existence is to stick by you through thick or thin, win or lose, urging you to greater achievements by rooting and cheering. We are working to build a combined community spirit. Any entertainment which would place only after the season is over. PENNANT ROOTERS' CLUB OF ST. LOUIS.

Kitty League Race Close.

MADISONVILLE, Ky., Aug. 29.—The race for the Kitty League pennant has developed into one of the closest in the history of that organization. Madisonville, Hopkinsville and Paris (Tenn.) are battling for first place. The Kitty League season will close on Sept. 4.

Giants Win Exhibition.

By the Associated Press.
TOLEDO, O., Aug. 29.—The New York Club of the National League defeated the Toledo American Association team in an exhibition game here yesterday by a score of 5 to 4.

Counterfeit Bills, as It Were.

FAILURE of Bill Doak and Bill Pertusa may be held directly responsible for nullifying the rip-roaringest punch that has been seen in St. Louis baseball since the days when the batter could call for high, waist or low ball and when a base on balls was counted a hit. The absolute lack of pitching resistance brought about by the failure of these two Williams, plus the overworking of Sherdel, the late development of Haines and the failure of any young hurlers to come through, enabled enemy teams of moderate hitting ability to make more base hits against the Cardinals than the savagely clouting Rickermans were able to make against enemy pitchers.

Some idea of the Cards' punch, which has survived in the face of really staggering discouragements, may be gleaned from its work against the far superior hurling afforded by enemy teams, during the present home stand. In the 11 games played not once did the Cards face an enemy whose hurling selection bore an inferior reputation to the Cardinals' mound-men, the Nefts, McQuillans, Alexanders, Meadows, Smiths and others of high reputation had only the desperate Cardinals' staff men to beat.

The Knockout Staff.

YET, in 13 games, the Cardinals averaged 11 safe hits per game, and out-hit the enemy in extra bases. The team averaged six runs per game. On one occasion its punch enabled it twice in one game to make five-run rallies—a game which it lost by the way.

What will happen for the remainder of the season, who can tell? Much just a shab in progress in pitching—where it is to come from none can say—the Cards' fierce wallop might keep the team in second place. With just a continuation of its present weakness, it is possible for the club to finish sixth.

Wherever the Cardinals land, this year, this much is certain: If Hickey and company would spend this year's profits in buying up new pitching talent instead of old Cardinal stock they could tell the National League to step aside, next season. With Toney lined up for 1930, two first-class hurlers are needed to complete the Cardinal staff. With Sherdel, that would give four aces.

No matter what it costs the Cards MUST have pitching talent next year. Punch alone will not win—it has been shown. Begin now to bolster, Sam.

Wray's Column

Counterfeit Bills, as It Were.

FAILURE of Bill Doak and Bill Pertusa may be held directly responsible for nullifying the rip-roaringest punch that has been seen in St. Louis baseball since the days when the batter could call for high, waist or low ball and when a base on balls was counted a hit. The absolute lack of pitching resistance brought about by the failure of these two Williams, plus the overworking of Sherdel, the late development of Haines and the failure of any young hurlers to come through, enabled enemy teams of moderate hitting ability to make more base hits against the Cardinals than the savagely clouting Rickermans were able to make against enemy pitchers.

Some idea of the Cards' punch, which has survived in the face of really staggering discouragements, may be gleaned from its work against the far superior hurling afforded by enemy teams, during the present home stand. In the 11 games played not once did the Cards face an enemy whose hurling selection bore an inferior reputation to the Cardinals' mound-men, the Nefts, McQuillans, Alexanders, Meadows, Smiths and others of high reputation had only the desperate Cardinals' staff men to beat.

The Knockout Staff.

YET, in 13 games, the Cardinals averaged 11 safe hits per game, and out-hit the enemy in extra bases. The team averaged six runs per game. On one occasion its punch enabled it twice in one game to make five-run rallies—a game which it lost by the way.

What will happen for the remainder of the season, who can tell? Much just a shab in progress in pitching—where it is to come from none can say—the Cards' fierce wallop might keep the team in second place. With just a continuation of its present weakness, it is possible for the club to finish sixth.

Lee Fohl's Success.

LEE FOHL started the season with no better prospect than the Cardinals, except that in the main the Browns' defensive play was tighter. He has had but one really sure pitcher—Shooker, the best right-hander in the league. Fohl was handicapped in mid-season by a shortage of left-hand pitchers. Bayne lacked something. Danforth had to be turned aside. Pruet was injured. None of these was considered of first rating, to begin with.

Now for the stretch run. Fohl finds himself in genuine pitching distress. With no special pitching defense against strong left-hand hitting clubs and only one safe right hander, he must rely on his pitchers' judiciously and trust that the team's punch will keep its head up.

Yanks Have It On Us.

VANGILDER, Wright, Kolp and Davis at time pitch good ball; but they are erratic and not yet

able to hold the entire confidence of the club. It's hit or miss whether they go through the game every time they go to the hill.

As between the Yanks and the Browns there is really no comparison. Mays and Holt seem to be coming round, just at the right time for Huggins, while Shawkey, "Bullet" Joe Bush and Sam Jones are now going in their best form. If the Yanks and the Browns were to play twenty games, the Yanks would figure to win 12 of them. That's because of its pitching reserves.

Thank You, Mr. Rickard.

TEX RICKARD, disgusted with Jackson Billy McCrory's black drop, has dropped negotiations for the Willard-Dempsey fight.

A Physical Break.

HARRY WILLS faces a potential Langford tonight when the challenger of Jack Dempsey gets a workout against Tut Jackson. Billy once had a famous white hope, Lute McCarty. If the chocolate-colored McCarty hope is half as clever as Lute McCarty, he may be moulded into real championship shape.

Louis Kretlow, 80-year-old dancing teacher attending convention in Chicago, demonstrating a step to other instructors.

The funeral of Arthur Griffith in Dublin. Hearse and casket arriving at City Hall.

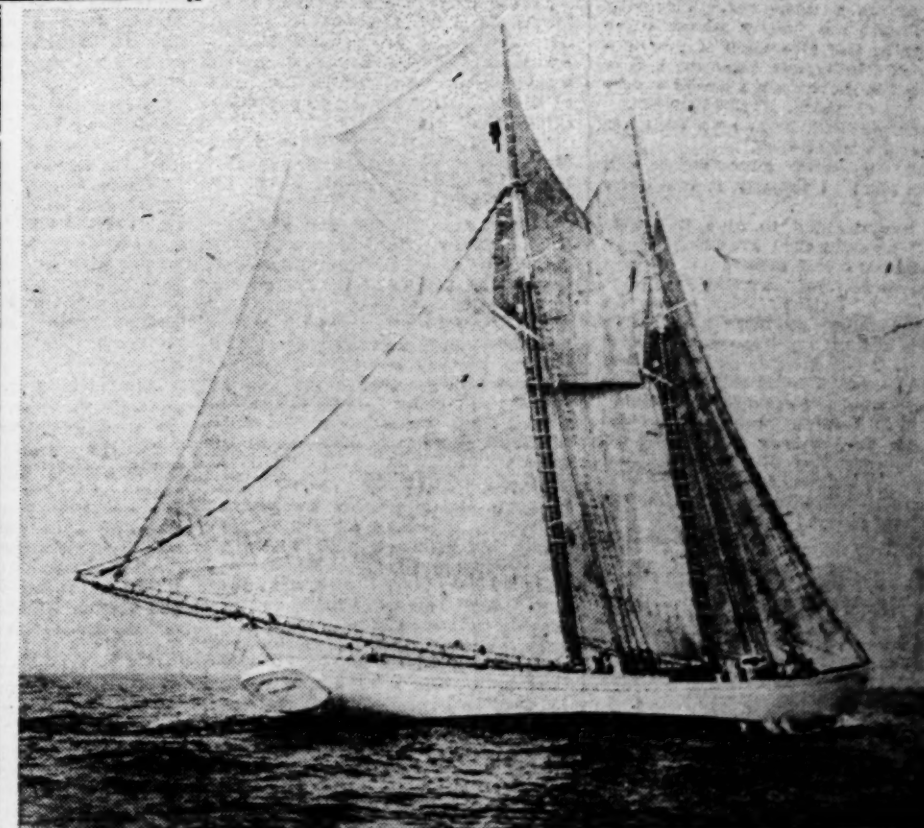

A German miss in the shot put at athletic carnival, Berlin stadium.

The Chester County Radio Association (Pennsylvania) has a traveling receiving station which gives demonstrations of wireless in rural communities.

Scene at the funeral in Dublin of Arthur Griffith, former President of the Dail Eireann. On left, Griffith's widow and next to her is Griffith's brother.

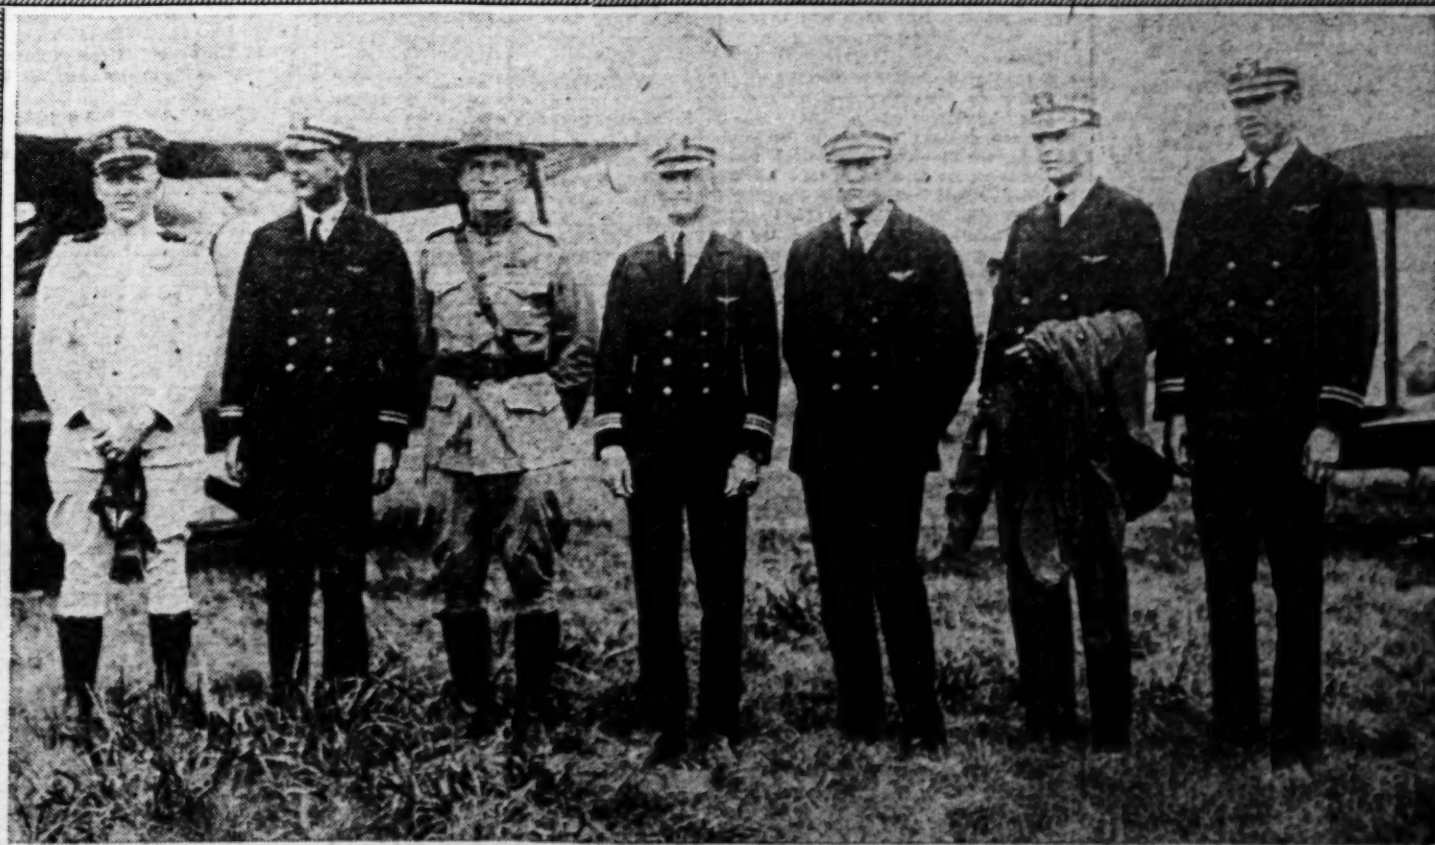

The schooner Elizabeth Howard, owned by W. W. Howard of New York, departing for the Grand Banks to qualify for the trial races preliminary to the international fishermen's race. She is New York's only entry.

Mary Catherine Campbell, 16-year-old girl of Columbus, O., who won the preliminary beauty contest at Atlantic City from a field of 170 entries. She recently was graduated at the head of her high-school class.

To the left, William T. Cosgrave, one of the triumvirate now in charge of Irish affairs, photographed at the Griffith funeral.

The Navy's flying team which will compete in the Pulitzer Trophy race at Detroit, Mich., on October 14. They are training now at the Anacostia Naval Station, near Washington. Left to right: Lieut. F. C. Fletcher, Lieut. S. W. Calaway, Lieut. L. H. Sanderson, Marine Corps; Lieutenant-Commander M. A. Mitscher, captain of the team; Lieut. David Rittenhouse, Lieut. Rutledge Irvine and Lieut. A. W. Gordon.

KATHARINE NEWLIN BURT

CHAPTER XII

New Wine in Old Bottles.
"B" BEFORE we begin on lessons," said Q. "I've got to ask you to help me out with a letter I've wrote."
His "schoolmarm" shook her head at him. "I've wrote" Q?
Q gazed at her with the intent eyes of a searcher of dictionary pages and at last produced the parchment.
"I've written, ma'am. Don't it sound dreezy that-away?"
She sighed and held out her hand across the table, and he, standing opposite, signed his paper for an instant before returning it. "Why do you sigh, then, Miss Mary?" he asked her.
"Because, Q. I don't think you try very hard to speak good English, and that is really the most important part of all your education."
"Yes, ma'am. I know it is, but it's got to come gradual. I'll be talkin' like a kind of parrot in a high hat—I've thought about that quite a lot, and it kind of seemed to me that until I had got the sound of talkin' right in my head, it would be akward like for me to try to talk any different than I was raised to talk."
"You certainly think straight, Q. No matter how you talk, I believe you're right. Let me see your letter."
She brightened as she read it, for however rebellious his tongue, his pen had been surprisingly well mastered. The sheet was covered with even lines of a clear, strong writing, and even the spelling was no disgrace to her.
Dear Sir:
I have heard from a friend of your skill as a doc and I'd like it if you'd look after a wound that has been troubling me some lately. It don't seem to heal right and I need the use of my wrist. I am at the River Hotel and will pay for coming to give me a look-over. Thursday would suit me fine at about three o'clock in the afternoon if you can make it. Kindly telephone me before nine in the morning if I would expect you.
Q. T. KINWYDDEN.
Mary, puzzled, looked up with her arch and wistful eyes.
"But, Q—does your wrist still bother you? I thought it was quite well."
"I've decided to give it a set-back," he answered gravely.
"What do you mean? If there's really something wrong—why not call in Dr. Sales? Why have you this prejudice against him? I've known him all my life—nearly—and he has been the best and kindest friend to me. Who is this other doctor and where did you hear of him?"
Q was folding his letter and through the intense gravity of his face a little gleam of some different expression skipped in and out.
"You're to some sort of devilry," said Mary.
"Ain't it about time?" he demanded.
"Where is your envelope? Are you going to address it?"
"My," said Q. impersonally, "ain't cove and women inquirin' critters! I've seed half a herd mow across a plain to look in at a hat some lady does let fall along a trail."
"Don't be hard on me, I don't care in the least about your doctor, but it hurts my feelings that you don't trust Dr. Sales. You were dreadfully rude to him about the hospital the day you were hurt. You must not be ready to believe spiteful gossip. I know that there has been a great deal of talk against Dr. Sales—even that a lawsuit was brought against him. Miss Grimscombe had her lawyer from New York and Dr. Sales was completely exonerated."
"Yes, ma'am. How do you spell Laurie?"
Mary started and her face changed from mildly amused annoyance into the most concerned interest.
"L-a-u-r-i-e," she spelled, and watched him with an anxious look.
Dr. Laurie Sales.
West Lepines.
X. J.
wrote the careful pen in the strong, lean fingers.
"Oh, Q. You don't—you can't know what you're doing!"
He took out a stamp, put it in place, and slipped the letter into his pocket.
"Now, I'm all ready for lessons, ma'am."
But her face was not ready for schoolmarm's impersonalities; it was all one flushed question.
"Q. Q. what are you up to? But it isn't like you to mix up in things—up to me!"
"I'm beginning to think that I'm a regular old maid," said Q. "It's town life that does it, and hearin' so much talk from women folks."
"You are sending for Laurie Sales?" cried Mary breathlessly, and somehow you know that the River Hotel is just the most fatal spot in the world for Laurie. Look out, Q! You don't want to break his father's heart."
"I'd not be carin'," he announced briefly.
"You're an unreasonable savage!" Then, with sternness she leaned over, pointing her finger at him. "You must listen to me, Q. and you must follow my advice. I know what I'm talking about. There are excellent reasons why Laurie should not be brought to the River Hotel on any pretext whatever."
"No, ma'am. There is just one reason why he should be brought there—and that's—Sophie!"
"Ah! So you do know!"
"Yes, ma'am."
"Q. you are a silly sentimental!"

Love Letters That Made History

Abelard and Heloise
By JOSEPH KAYE

THE most moving romance of ancient times, even equalling the fiction love of Juliet for Romeo, is that of Abelard and Heloise.
Abelard was one of the most brilliant minds of his time, the eleventh century. He was a teacher and philosopher and so great were his fame and influence that he began to think himself the one philosopher in the world. At the height of his triumphs he fell in love with a young girl named Heloise, the daughter of a Paris canon and one of the most highly cultured women of her age, and directed his efforts to becoming her tutor, which he succeeded in doing. In the freedom he thus obtained in the uncle's house, Abelard made love to the young girl. Heloise returned his love and soon after was forced to fly to the country, where she gave birth to a son.
Abelard offered marriage to the girl but she, knowing that marriage would forever ruin his clerical career, preferred dishonor to his unhappiness. Abelard, however, prevailed upon her to consent and they were married, with the understanding, shared in by her uncle, that the marriage was to be kept secret. After the marriage Heloise's guardian refused to keep his promise and vindictively made public the spiritual Abelard's earthly bonds. In her eager devotion to Abelard, Heloise branded her uncle's revelation as a lie and made the terrible sacrifice of proclaiming herself an unmarried mother. But her efforts in Abelard's behalf did not help him. On the other hand it made her a target for such vile abuse and persecution that the only relief left to her was to escape to a convent and become a nun.
In her plan to take the veil she was aided by the distracted Abelard, and Heloise's uncle, thinking that he had been tricked, determined to get his wife out of the way, determined to be avenged and together with several friends, broke into Abelard's bed-chamber in the dead of the night and attacked him. Now borne down to the deepest

abyss of shame and despair, Abelard became a monk and eventually, finding even this sanctuary a hard one, became a hermit in a desert.
The historic love letters of Heloise and Abelard were written when Heloise was a prioress and Abelard a wanderer, seeking to regain some of his former glory. He died at the age of 43, a broken man. Though buried elsewhere his remains were secretly brought to Heloise and she reburied him in the ground upon which he had lived his hermit life and where Heloise's religious institution was now located.
By a strange coincidence Heloise also died at the age of 43 and was buried near Abelard's grave. The lovers' bones were moved many times, but their remains were preserved even through all the turmoil of European history and they now find a permanent resting place in the cemetery of Perle-la-Chaise, Paris, where their tomb is a famous lovers' shrine.
The beautiful letter below is one of those written by Heloise to Abelard and shows the passionate love which the veil was made to conceal.
"At the command I would change not merely my costume but my very soul, so entirely art thou the sole possessor of my body and spirit. I have sought thee and not thy gifts; I have not looked to the marriage bond or dowry; I have not even yearned to satisfy my own will and pleasure but thine, as thou wilt knowest.
"The name of wife may be hollow and more approved, but the name friend—nay, mistress of concubine, if thou wilt suffer it—has always been the sweeter to me. For in thus giving greater favor from thee, and do less injury to thy greatness, I am more to honor me with the offer of wedlock and yield me the empire of the universe. I should deem it more precious and more honorable to be the mistress than to be Queen of a Caesar."

PRESIDENT M. CAREY THOMAS

MRS. MINNIE MADDERN FISKE

Women Selected as America's 12 Greatest and Who They Are

By MARGUERITE MARTIN.

SINCE Donna Bertha Lutz, delegate from Brazil to the Pan-American suffrage convention at Baltimore last spring, asked for a list of the 12 greatest living women of America, many persons and groups of persons have undertaken to respond to her request. Many newspapers have conducted symposiums of opinion from persons whose opinions might be regarded as authoritative, with a view to arriving at the correct list.
Each newspaper, selecting the 12 names which received most frequent mention by its correspondents, has compiled a list which it submits as the most representative.
And now, the several newspapers having submitted their claims to the perfect list, a list of the 12 names most frequently mentioned in all the lists is offered as an interesting conclusion from the whole discussion.
Jane Addams.
Mary Pickford.
Mella Bjurstedt Mallory.
Agnes Repplier.
Amy Lowell.
Alice Paul.
Gertrude Farrar.
Edith Wharton.
M. Cary Thomas.
Ida Tarbell.
Carrie Chapman Catt.
Inevitably the discussion resolved itself into the question as to which woman most strongly represented or stood out as most notable in some certain class or line of endeavor. Many with their nominations have expressed the idea and the regret that in those classes in which women unquestionably have excelled, i. e., as wives and mothers, they must perform obscure and unknown. Some of the list makers, insisting

that motherhood is woman's greatest career, have accordingly offered the names of the mothers of the 12 men whom they have regarded as the greatest. Others, insisting that woman plays her most important role in wifehood, have submitted the names of the wives of 12 greatest men.
Doubtless the list which includes the names of women most conspicuous and notable in some respective line of public work will most clearly answer the question of the feminist from South America.
In the list submitted as final and conclusive of who are our 12 greatest women, some names are familiar enough to all of us. At some of the others, some of us are likely to stop and puzzle to place them in our memory. We may feel a touch of embarrassment at having to confess these points of ignorance. We need not. None of us can be equally interested and informed on 12 diversified spheres in which women these days are excelling one another. And the greatest is not necessarily the most familiar.
Doubtless most of us are familiar with the career of Jane Addams as a great humanitarian and one of the first sociologists to go and live among

the masses for the purpose of uplifting them, and after whose settlement house, Hull House in Chicago, many community centers have been patterned. The name of Jane Addams we may have thought was not restricted only to her own country, and yet there was a famous woman visitor to our shores recently, Margot Asquith, intellectual and worldly wise, who, at first, denied she ever had heard of Jane Addams.
Mary Pickford, perhaps we would have to inform a learned visitor from foreign lands that she is our best known movie star, though we hardly need to so inform the less learned among us in this country, and some other countries, too, judging from her reception on recent foreign travels.
You may be familiar with all the great names in Who's Who, which volume with its four inches of thickness is supposed to contain the names of all distinguished persons, and yet be unfamiliar with the name of Mella Bjurstedt Mallory, Notwithstanding Who's Who, to quite a large gallery of tennis fans over the world the name of Mrs. Mallory has become familiar as time after time she has won a tennis championship.
Agnes Repplier—Now there is a name over which many may be exercised for stopping and pondering, unless we be readers and appreciators of essays of a decidedly high-brow character. And certainly that class among us is not a large one.
Amy Lowell—Unless we can be accused of being addicted to free verse, surely we may be excused if we have some difficulty in placing

her in just the right category of memory.
Alice Paul—East Boston native to the Washington post, suffragist leader and director of the suffragist activities, many persons whose names are supposed to count now and then with a due share in the victory.
Gertrude Farrar—It is hard to have the easiest person in the world to nominate her, for shining of our eyes, for her many others, equally well, contending for the honor.
Edith Wharton—Not widely read author, certainly distinguished as the Pulitzer prize for fiction in 1921.
M. Cary Thomas—As president of the National Woman's Party, Bryn Mawr, according to more widely known than ship in the woman movement.
Ida Tarbell—Classical author or associate editor of leading magazines, but best remembered for her Standard Oil, which she did with enlightening pen in the iniquities of great trusts.
The fame of Carrie Chapman Catt is due and will endure, and leader of the movement in this country most crucial period of the cause.

5 reasons why mothers buy HICKORY waists and garters for boys and girls

1. Tailored of high grade materials to insure long wear. Wash wonderfully.
2. Each garment FITS PERFECTLY. Athletic cut arms holes eliminate bulging or binding. All sizes 2 to 14.
3. Scientifically constructed to supply the support, comfort and security growing children require.
4. Patent rust-proof pin-tube attachment prevents garter pin from slipping, bending or breaking.
5. Buttons are genuine unbreakable bone—soudy taped on to endure endless rubbing.

THE KNOCKER.

THIS is the voice of the knocker. I hear him complain. The boosters are knocking the knockers again. A slap on the back is all right in a way. But a kick in the pants will quite frequently pay. And if as they say every knock is a boost. Our ball teams will shortly be ruling the roost.

"If it weren't for knockers who jazz up the works. The world would be peopled with slackers and shirks. We're prone to get lary when fed up on praise. And fall into careless and indolent ways. The booster is clever as far as he goes. But the knocker keeps everyone right on his toes.

"I always give credit when credit is due. And offer the proper encouragement, too. But on any adventure that lacks the true ring. My trusty old hammer I'm ready to swing. While salve-spreading boys at the knocker will howl. For swinging the hammer instead of the trowl."

ALL RIGHT.

There being two sides to every question, tomorrow we will have a few remarks from the booster.

"U. S. Gunboats to Take Part in Action Against Chinese Bands." Couldn't we persuade them to take action against some of our own jazz bands?

Stuffy McInnis has used the same glove for 10 years. Who'll chip in to buy Stuffy a new glove?

QUITE SO.

"Hughes on Way to Brazil." Instead of Newberrying he will try his hand at nutting for a while.

"13 Most Beautiful Women Named by Nyma McMein." Back to the bomb-proof, Nyma!

TOO TRUE.

FULL many a beauty born to blush unseen. By that great color-artist, Miss McMein. Against her judgment will be up in arms. For having overlooked their many charms.

EPIDERMICALLY SPEAKING.

Beauty is only skin deep. But a dermatologist isn't necessarily a good judge of beauty.

"Turks Make Attack on Greeks."

Indicating the world is getting back to normalcy.

CONSOLATION.

WH thought we had a winning team.

But New York banished all our hope.

Which proves the check book is supreme.

In spite of all contrary dope.

Although we're trailing in the race.

Our heroes gave the best they had.

We're fighting now for second place.

Which, after all, is not so bad.

We made the Giants gasp for breath.

And thought we had 'em badly skinned.

In fact, we had 'em scared to death.

Until they got their second wind.

MY FAVORITE STORIES

By IRVIN S. COBB.

TIME WAS NO OBJECT

A COLORED man was idling along the sidewalk on the opposite side of the street from where the county jail stood. From a barred window high up in the structure across the way came the voice of a member of his own race:

"Say, nigger," called the unseen speaker.

The pedestrian halted and faced about.

"What you want?" he demanded.

"I wants to ax you a question," said the invisible prisoner.

"Well, ax it. It's listenin'."

"Is you got a watch on you?"

"Suttin'ly I's got a watch on me."

"Well, den, what time is it?"

"What is time to you?" answered the man in the street, without making any move to fetch forth his watch. "You ain't fixin' to go nowhere!"
